## News In Brief

### Atom Driven Plane Plans Being Pushed

WASHINGTON (AP)—Both the Air Force and the Navy were reported today to have decided on basic designs for atom-driven planes to be produced within about two years.

The services were under stepped up pressure from Congress to get a nuclear plane into the air ahead of any rival country.

Chairman Durham (D-NC) of the Senate Atomic Energy Committee said he is arranging immediate conferences with top defense officials on the project.

Chairman Price (D-Ill.) of the Research and Development subcommittee said he is "encouraged, up to a point" by evidence of renewed enthusiasm at the Pentagon, but that there is "a threat to the project," on which he will elaborate later.

Reports that the Navy has been moving more quickly on its relatively unpublished plans for a nuclear seaplane were in effect confirmed by Adm. Arleigh Burke, chief of naval operations, who said that "we are going ahead" with the project and a plane should be ready for testing "in a couple of years."

NEW DELHI (AP)—President Sukarno of Indonesia arrived in New Delhi today on the first major stop of a tour from Cairo to Tokyo.

Sukarno's six-week tour is officially described as a rest and health trip. But he is also seeking to intensify African-Asian support for his drive to wrest West New Guinea from the Dutch.

LONDON (AP)—Moscow radio reported the death today of President Petru Groza of Communist Romania. He was 75.

Groza had been failing steadily since an abdominal operation last November.

So far as the Communists were concerned, Groza was always a meaningless figurehead who served as one of their tools in eliminating effective political opposition in Romania.

MOSCOW (AP)—The publication Soviet Fleet said today U.S. naval experts still are seeking vainly to solve the problem of protecting America's "aggressive carrier fleets" from plane and rocket counterattacks.

In an article on antimissile and anti-air defense experiments, the Soviet navy organ said Washington naval technicians were "forced to admit the bitter truth that no such defense exists."

### Lady Solons Worry About U.S. Education

WASHINGTON (AP)—Concern over the state of U. S. education appeared to be uppermost in the minds of many of the nation's 16 congresswomen today.

The only woman senator, Mrs. Margaret Chase Smith (R-Maine), said she feels strongly that "more people should study science" in view of its importance to this nation's defense.

Mrs. Frances Bolton (R-Ohio), now in her 10th term in the House and a member of the House Foreign Affairs Committee, said she has felt for the past 20 years "our educational methods are weak."

She was dubious that the administration's proposed billion dollar education program would be enough to solve "a complicated, difficult problem."

FLIGHT INTO FANTASY?—This drawing of a manned earth satellite appeared in a book entitled "Journey into the Cosmos" by M. Vassiliev published in Moscow in 1955. It is an interesting tie-in with an unconfirmed rumor circulated in Moscow that Soviet scientists fired a rocket with a man inside to an altitude of 186 miles.

## Russians Mum On 'Man' Rocket

MOSCOW (AP)—The Kremlin kept silent today on unofficial reports that Russia has fired a man-carrying rocket about 186 miles high and got the passenger back to earth by parachute.

The official blackout aroused speculation that the rocket experiment took place about Jan. 1.

A human making the rocket trip attributed to the Soviet pioneer would hurdle through the 70-below zero chill of the stratosphere into the withering heat of the ionosphere, there to be bombarded by cosmic rays and burning X-rays and ultraviolet rays from the sun.

The Moscow sources said the Russian rocket man parachuted successfully to earth. They did not specify whether he was alive when he landed, but newsmen inferred that he was safe.

OBSERVERS believed the traveler was released from the rocket in a pressurized container, then broke clear to jump when the container dropped far enough.

## Judge Links Fancy Hairdos With Trouble

LONG BEACH, Calif. (AP)—Boys with ducktail haircuts, particularly if the hair is pleated in back, had better steer clear of Municipal Judge Charles T. Smith.

The jurist, who has a crew cut himself, makes no bones about the fact that he does not care for long, fancy hairdos on men.

Monday, Judge Smith granted probation to 21-year-old Gary T. Lindsay, but only after he had taken him into his chambers and measured his hair with a ruler to determine if it had been cut to the proper length, as ordered.

The youth had appeared before Judge Smith last week on a misdemeanor charge of carrying an illegal weapon, a six-inch switchblade knife. At that time the judge said he would let the youth off with a \$25 fine and a year's probation if he would cut his hair short, "no single hair to be more than 1 1/2 inches long."

Lindsay passed the ruler test and was granted leniency.

Judge Smith expounded: "The boys who have long, pleated hair in back invariably seem to be in trouble. It has been my experience that invariably the persons with the long hair are involved in some nefarious activity, and police records have borne that out."

### 3 Ward Stores Hit by Strike

CHICAGO (AP)—Employees walked out at three of Montgomery Ward's 565 retail stores Monday and set up pickets at various other company stores to support demands for a wage boost.

The strike was called by the Retail Clerks International Ass'n. Company and union officials said no new negotiations are planned.

The union said "informational picketing" was carried out Monday at 200 Ward's stores. Such picketing, the union said, is designed to make the company's customers aware of the labor dispute.

The Ward management said it knew only 25 to 30 stores where the pickets appeared.

## Ike's Budget Set At \$74 Billion

WASHINGTON (AP)—President Eisenhower told Republican legislative leaders today he will send Congress a balanced budget calling for spending about \$74 billion to help meet the threat of Communist imperialism.

Senate GOP Leader Knowland of California reported after a conference with the President that he got the impression Eisenhower is convinced the current year will be better from the standpoint of business than last year.

Knowland made his report on the President's thinking at the close of a White House briefing for GOP leaders from the Capitol on the State of the Union message Eisenhower will deliver to Congress personally Thursday.

The conference came just in advance of the opening of the second session of the 85th Congress in which the nation's defenses are marked for top priority.

Many Democrats and Republicans in Congress feel the United States is lagging in the military race and that something drastic must be done about it.

Congress seems likely to get its first crack at this problem when Secretary of Defense McElroy asks for immediate appropriation of more than \$1 billion in new money to finance a speedup in the missile program and other defense measures.

Sen. Knowland of California, Senate Republican leader, said he has no doubt defense matters will get top priority, but added:

"WE WILL HAVE to see the budget figures showing where the administration is proposing to allocate funds before we can make any intelligent decisions on where we are going."

Congress will buckle down to what looks like a lengthy and controversial election-year meeting.

Here is the way some of the major issues shape up now:

Foreign Aid—Eisenhower is expected to ask about \$4 billion to continue this program, with emphasis on a development loan fund for Asian and African nations.

Congress probably will cut the amount, but perhaps not as sharply as in some previous years.

Labor—Administration proposals for public disclosure of welfare fund operations, filing of union financial reports, and enactment of new antibribery laws may get a warmer reception because of Senate Rackets Committee disclosures. Proposed changes in the Taft-Hartley Act are unlikely in an election year.

Atomic—Some relaxation may be voted on the amount of weapons manufacture and scientific information that may be exchanged with U. S. allies.

Scientific Education—Congress may enlarge Eisenhower's \$1 billion four-year scholarship program.

FARM—MANY senators predict a hot reception for Secretary of Agriculture Benson when he goes before the Senate Agriculture Committee sometime next week for questioning about his farm aid programs.

Unemployment—With the number of jobless rising, Democrats expect to make strenuous efforts in this field.

## U.S. Women Shop in China

### 3 Mothers Await Visits with Sons

HONG KONG (AP)—Three American mothers spent today in Canton shopping and sightseeing while waiting for plane passage to visit their sons in Chinese Communist prisons.

The women—Mrs. Mary Downey, New Britain, Conn.; Mrs. Jessie Peeteau, Lynn, Mass.; and Mrs. Ruth Redmond, Yonkers, N. Y.—and Mrs. Donwey's son William, 25, arrived in Canton Monday from the United States via Hong Kong.

They came in response to a Communist invitation to visit their sons, imprisoned on espionage charges. The State Department suddenly relaxed its ban on American travel in Communist China for them.

This morning the four visited department stores and a few small shops where "we bought some writing paper and earrings." They also visited a park and a gymnasium near it.

Mrs. Redmond is going to Shanghai to visit her son Hugh, serving a life sentence. The other three are going to Peiping to visit Richard Peeteau serving 20 years, and John Downey, who was sentenced to a life term. Redmond has been in jail since 1951, the other two since 1952.

## NLRB Aide Slated For Trial Testimony

CLEVELAND (AP)—John A. Hull, regional director of the National Labor Relations Board was to be the first witness today in the trial of seven persons charged with conspiracy in the filing of non-Communist affidavits under the Taft-Hartley Law.

Hull, bringing the affidavits that are alleged to be false, was scheduled to take the stand after opening statements by U. S. Atty. Sumner Canary and defense attorneys.

On trial are Marie Reed Haug, her husband Fred, and Hyman Lumer, all of Cleveland; Eric Reinthal, Willowick; James West and Samuel Reed, both of Chicago, and Andrew Remes of Brooklyn, N. Y.

# State Board of Education To Hear Pickaway Petitions in Near Future

Three petitions for Pickaway County School district transfers are currently before the Ohio State Board of Education. They were filed by New Holland, Wayne Twp. and a group of Washington Twp. residents.

Hearings on the three transfer petitions are scheduled for late this month or early February.

All three petitions were presented to the Pickaway County Board of Education prior to November 1 and subsequently were refused by the board and sent to the state board for final action.

The December issue of the state board's publication "News Letter" has a statement on policy and procedure in school transfer cases.

In general, the state board will assume that all petitions filed by county boards are valid.

IN ADDITION, the state board will look favorably on petitions where some of the following conditions prevail:

Where the transfer is from a district which maintains a program of less than 12 grades to a district which maintains a satisfactory program of instruction in grades 1 through 12.

Where the transfer is from a district not considered a permanent school center for grades 1 through 12, inclusive, to a district which is considered a permanent school center.

Where the children of school age residing in the territory asking transfer have been attending the school for a considerable period of time on a tuition basis in the district to which the transfer is asked. However, consideration will be given to the desirability of maintaining consolidated school districts which have recently been created by county boards in an effort to establish permanent school districts.

Where the proposed transfer would correct discrepancies in contiguity of boundaries or tend to make district boundaries lines more regular.

Where the proposed transfer would assist in the elimination of duplication of transportation routes.

Where the per-pupil valuation of the territory to be transferred is fairly comparable to the per-pupil valuation of the district from which the territory is to be transferred.

Where, if a school building is involved in the territory to be transferred, the building in question is not needed by other students who will not be transferred.

THE PARTIES involved in the transfer are to appear before a committee of the Department of Education for the hearing, which will be at the state board office.

Notices will be sent to clerks of all the boards involved, stating the time and place of the conference.

At the time of the conference the department committee will request each side to furnish a list of not

more than three speakers who are to present each case.

Representatives of groups favoring the transfer will be given 30 minutes to present their case with a limit of three speakers. The group opposed will be given 30 minutes also, with a limit of three speakers.

Then 10 minutes of summary will be allowed each side.

Following the conference, the committee will take the matter under advisement and will report later its conclusions to the Superintendent of Public Instruction Edward E. Holt.

The decision of the committee or Holt will not be announced until Holt makes his recommendations to the state board of education.

New Holland is seeking transfer to the Miami Trace District in Fayette County. Wayne Twp. is seeking transfer to Circleville City School District and a portion of Washington Twp. also seeks transfer to the city school system.

At the time of the conference the department committee will request each side to furnish a list of not

HAPPY BIRTHDAY, MR. SPEAKER—Fellow Texas congressmen Homer Thornberry (left) and Wright Patman (right) congratulate Sam Rayburn on his 76th birthday. Rayburn, who opens the second session of the 85th Congress, is in his 46th year in Congress and 15th term as speaker.

## No Major Changes Expected In '58 Agriculture Program

WASHINGTON (AP)—The returning Congress may give some attention to farm problems, but it is unlikely to do anything that would affect 1958 crop programs.

Many proposals will be offered to change current programs affecting corn, wheat and some other crops as well as dairy products. Some doubtless would make changes this year.

But because of the sharp differences in views over farm policies between the Eisenhower administration and many farm state congressmen, and also among the major farm organizations, few leaders expect enactment of legislation that would change this year's operations.

The administration would like to throw off planting allotments on corn, but time is the limiting factor. Congressional action would have to be completed by late March or early April.

SOME DAIRY leaders will press for legislation to restore a recently announced reduction in dairy supports by Agriculture Secretary Benson. But Congress would have to act before April 1, the time set for the lower supports to go into effect.

Even if the dairy leaders could get such legislation through Congress, they would face the likelihood of a presidential veto.

Pressure will be brought by some wheat leaders to get a two-price plan enacted for this grain, providing higher prices for grain used in this country than for export wheat. But it is too late to change the 1958 wheat program because part of the crop already has been planted.

Congress may vote changes in the soil bank plan and in subsidies under the agricultural conservation practices program.

But such changes would not take effect until 1959, because 1958 versions of these programs already are in operation.

All and all the pattern for agriculture in 1958, insofar as it is determined by government, already has been cut.

Prospects of tax relief, brightening when Congress quit last August, now have waned before the rising urgency of Sputnik-inspired defense needs and the necessity of maintaining government tax revenues at a time of business slackening.

But even as Congress reconvened, the tax-writing House Ways and Means Committee got off to a fast start on a review of the federal tax laws.

The five weeks of hearings were scheduled early last fall as a tax revision study with rate-cutting overtones. Committee action now seems likely, however, to be limited to questions of broad tax policy and ambiguities in the 1954 revenue code.

In a statement prepared for opening of the hearings, Chairman Mills (D-Ark.) said the tax revision studies were for the purpose of "re-examining the basic policies underlying our tax laws."

He said the hearing results will be used to work out proposals for tax law revision that will develop a "fair and equitable" revenue system.

Most committee members agreed that chances of a major tax cut are dim.

Straub Given Boost For Judge's Position

TOLEDO (AP)—Lucas County Republican Chairman Herman R. Miller has recommended to Gov. O'Neill that Harvey G. Straub be appointed to the common pleas bench here to replace Judge John Q. Carey, who died Monday.

Miller said the results of an informal canvass of the Lucas County Executive Committee was unanimous for Straub, now in Washington on the Federal Pardon and Parole Commission.

## 'Peril of Hour' Is Obvious, Leader Stresses

### Army Handed Demand To Answer Claims Made by Gen. Gavin

WASHINGTON (AP)—Sen. Lyndon B. Johnson (D-Tex.) said today the returning Congress faces decisions that may determine who gains "total control over the earth for tyranny or the service of freedom. The peril of the hour is obvious."

Johnson, Senate Democratic leader and chairman of the preparedness subcommittee which has been probing into the status of the nation's missile and rockets programs, said Russia's leaders have made space control "a first aim of national policy."

In remarks prepared for a caucus of Democratic senators meeting just ahead of the formal opening of the new congressional session, Johnson said U. S. leaders have followed a different course.

"Some dismiss the Sputniks as playthings," he continued, adding that Congress must decide "which nation is correct."

The urgent race we are now in—or which we must enter—is not to perfect long range ballistic missiles," Johnson said.

"THERE IS something more important than any ultimate weapon. That is the ultimate position, the position of total control over earth that lies somewhere out in space."

In advance of the caucus, Johnson demanded that the Army answer testimony from Lt. Gen. James M. Gavin, chief of Army research and development, that his expected promotion was sidetracked after he spoke out against Pentagon missile policy.

Gavin disclosed over the weekend he had asked to be retired from the Army effective March 31 so as to be free to "recommend, to apply creative thinking to national defense."

Johnson said the Senate Preparedness subcommittee, of which he is chairman, will question Secretary of the Army Brucker to "establish the facts."

"It is a matter of serious concern to us that there be even a hint of reprisal against any witness that appears before us," Johnson, the Senate majority leader reported.

Gavin informed a closed session of the subcommittee that he announced his retirement after Gen. Maxwell D. Taylor, Army chief of staff, told him he was "no longer being considered" for promotion to four-star rank and assignment to the Continental Army Command.

JOHNSON quoted Gavin as saying he could not "document" a statement that this post was refused him, because of testimony he gave the committee Dec. 13.

He said he had been told a year earlier that he was being favorably considered for the post, and added: "I feel intuitively that the decision to change that plan may have been clouded by my testimony."

Appearing before the subcommittee Dec. 13, Gavin testified that he had been turned down repeatedly on requests for authority to send a satellite aloft with the Army's Jupiter-C experimental

### State Board of Education To Hear Pickaway Petitions in Near Future

Three petitions for Pickaway County School district transfers are currently before the Ohio State Board of Education. They were filed by New Holland, Wayne Twp. and a group of Washington Twp. residents.

Hearings on the three transfer petitions are scheduled for late this month or early February.

All three petitions were presented to the Pickaway County Board of Education prior to November 1 and subsequently were refused by the board and sent to the state board for final action.

Where the transfer is from a district which maintains a program of less than 12 grades to a district which maintains a satisfactory program of instruction in grades 1 through 12.

Where the transfer is from a district not considered a permanent school center for grades 1 through 12 inclusive, to a district which is considered a permanent school center.

Where the children of school age residing in the territory asking transfer have been attending the school for a considerable period of time on a tuition basis in the district to which the transfer is asked. However, consideration will be given to the desirability of maintaining consolidated school districts which have recently been created by county boards in an effort to establish permanent school districts.

Where the proposed transfer would correct discrepancies in contiguity of boundaries or tend to make district boundary lines more regular.

HAPPY BIRTHDAY, MR. SPEAKER—Fellow Texas congressmen Homer Thornberry (left) and Wright Patman (right) congratulate Sam Rayburn on his 76th birthday. Rayburn, who opens the second session of the 85th Congress, is in his 46th year in Congress and 15th term as speaker.

## No Major Changes Expected In '58 Agriculture Program

WASHINGTON (AP)—The returning Congress may give some attention to farm problems, but it is unlikely to do anything that would affect 1958 crop programs.

Many proposals will be offered to change current programs affecting corn, wheat and some other crops as well as dairy products. Some doubtless would make changes this year.

But because of the sharp differences in views over farm policies between the Eisenhower administration and many farm state congressmen, and also among the major farm organizations, few leaders expect enactment of legislation that would change this year's operations.

The administration would like to throw off planting allotments on corn, but time is the limiting factor. Congressional action would have to be completed by late March or early April.

SOME DAIRY leaders will press for legislation to restore a recently announced reduction in dairy supports by Agriculture Secretary Benson. But Congress would have to act before April 1, the time set for the lower supports to go into effect.

Even if the dairy leaders could get such legislation through Congress, they would face the likelihood of a presidential veto.

Pressure will be brought by some wheat leaders to get a two-price plan enacted for this grain, providing higher prices for grain used in this country than for export wheat. But it is too late to change the 1958 wheat program because part of the crop already has been planted.

Congress may vote changes in the soil bank plan and in subsidies under the agricultural conservation practices program.

But such changes would not take effect until 1959, because 1958 versions of these programs already are in operation.

All and all the pattern for agriculture in 1958, insofar as it is determined by government, already has been set.

Prospects of tax relief, brightening when Congress quit last August, now have waned before the rising urgency of Sputnik-inspired defense needs and the necessity of maintaining government tax revenues at a time of business slackening.

But even as Congress reconvened, the tax-writing House Ways and Means Committee got off to a fast start on a review of the federal tax laws.

The five weeks of hearings were scheduled early last fall as a revision study with rate-cutting overtones. Committee action now seems likely, however, to be limited to questions of broad tax policy and ambiguities in the 1954 revenue code.

In a statement prepared for opening of the hearings, Chairman Mills (D-Ark) said the tax revision studies were for the purpose of "re-examining the basic policies underlying our tax laws."

He said the hearing results will be used to work out proposals for tax law revision that will develop a "fair and equitable" revenue system.

Most committee members agreed that chances of a major tax cut are dim.

### Straub Given Boost For Judge's Position

TOLEDO (AP)—Lucas County Republican Chairman Herman R. Miller has recommended to Gov. O'Neill that Harvey G. Straub be appointed to the common pleas bench here to replace Judge John Q. Carey, who died Monday.

Miller said the results of an informal canvass of the Lucas Republican Executive Committee was unanimous for Straub, now in Washington on the Federal Parole and Pardon Commission.

## 'Peril of Hour' Is Obvious, Leader Stresses

Army Handed Demand To Answer Claims Made by Gen. Gavin

WASHINGTON (AP)—Sen. Lyndon B. Johnson (D-Tex.) said today the returning Congress faces decisions that may determine who gains "total control over the earth for tyranny or the service of freedom. The peril of the hour is obvious."

Johnson, Senate Democratic leader and chairman of the preparedness subcommittee which has been probing into the status of the nation's missile and rockets programs, said Russia's leaders have made space control "a first aim of national policy."

In remarks prepared for a caucus of Democratic senators meeting just ahead of the formal opening of the new congressional session, Johnson said U. S. leaders have followed a different course.

"Some dismiss the Sputniks as playthings," he continued, adding that Congress must decide "which nation is correct."

The urgent race we are now in—or which we must enter—is not to perfect long range ballistic missiles," Johnson said.

"THERE IS something more important than any ultimate weapon. That is the ultimate position, the position of total control over earth that lies somewhere out in space."

In advance of the caucus, Johnson demanded that the Army answer testimony from Lt. Gen. James M. Gavin, chief of Army research and development, that his expected promotion was sidetracked after he spoke out against Pentagon missile policy.

Gavin disclosed over the weekend he had asked to be retired from the Army effective March 31 so as to be free to "recommend, to apply creative thinking to national defense."

Johnson said the Senate Preparedness subcommittee, of which he is chairman, will question Secretary of the Army Brucker to "establish the facts."

"It is a matter of serious concern to us that there be even a hint of reprisal against any witness that appears before us," Johnson, the Senate majority leader, reported.

Gavin informed a closed session of the subcommittee that he announced his retirement after Gen. Maxwell D. Taylor, Army chief of staff, told him he was "no longer being considered" for promotion to four-star rank and assignment to the Continental Army Command.

JOHNSON quoted Gavin as saying he could not "document" a statement that this post was refused him, because of testimony he gave the committee Dec. 13.

He said he had been told a year earlier that he was being favorably considered for the post, and added: "I feel intuitively that the decision to change that plan may have been clouded by my testimony."

Appearing before the subcommittee Dec. 13, Gavin testified that he had been turned down repeatedly on requests for authority to send a satellite aloft with the Army's Jupiter-C experimental (Continued on Page Two)

## Sensenbrenner Says He Won't Be Pressured

Two Pickaway County residents met with the Mayor of Columbus, M. E. (Jack) Sensenbrenner, yesterday in his office in City Hall. Sensenbrenner is an announced candidate for governor.

After talking about the Circleville of the teens and "20's", Sensenbrenner expressed his appreciation of Pickaway County by saying, "God Bless Pickaway County for being the first to endorse me for the Democratic candidate for governor".

"Jack" said that one of the things he was proudest of in his life was the fact that he was born in Circleville and "good ole Pickaway County". He said, "I'm so proud of being from Circleville that I could burst."

Sensenbrenner has made an unbiased stand on his platform for governor stressing honesty first and to fight for the rights of business, labor, utilities without prejudice to race, creed or color.

After announcing his candidacy, Sensenbrenner has the strong conviction not to withdraw or concede to any pressure group or party faction. He stated that he will carry his candidacy to the good people of the state of Ohio with the conviction they will answer his call with overwhelming support.

## Dulles Braced For Batch of New Criticism

WASHINGTON (AP)—John Foster Dulles has decided to stay on as secretary of state and is steeling himself to resist what he anticipates will be a mounting Democratic demand he retire.

President Eisenhower is understood to have assured him of full backing if he will continue. The 69-year-old secretary is reported to have considered his future carefully in recent weeks.

Friends said he realized that if he wanted to quit, his 70th birthday Feb. 25 and the approach of an expected hectic congressional session would have given him ample reason.

Now that he has made his decision, informants said, he has no intention of quitting under domestic political fire.

The big question mark is his health. He is understood to be confident, however, he will be vigorous enough for the job.

Dulles had some reason to question his fitness when he returned from the Atlantic Pact summit meeting in Paris two weeks ago, weary and suffering from a bad case of laryngitis. At that time he complained to friends he never before had felt so tired.

But, after a five-day New Year's vacation on Long Island, he appears to have bounced back. He told friends on his return that he felt as good as he looked.

Miss Callas, also American-born, in walking out on her role after the first act on opening night, not only caused a furor throughout Italy but may have ended her operatic career in that country.

## Macmillan Resolves Crisis At Home, Starts Long Tour

LONDON (AP)—Prime Minister Macmillan left London today on a five-week tour to unify commonwealth thinking on international problems.

Macmillan's visit to India, Pakistan, Ceylon, New Zealand and Australia dramatized the fact that Britain's relationship to the commonwealth countries now is one of equal partnership rather than of parent to child.

Macmillan left behind a hastily resolved Cabinet crisis and the diplomatic loose ends of his proposal for a nonaggression pact with the Soviet Union. Minutes before he stepped on his plane the Prime Minister, smiling and jaunty, said he had resolved the differences in his cabinet revealed by the bombshell resignation Monday night of Chancellor of the Exchequer Peter Thorneycroft.

Thorneycroft, who objected to the Cabinet's decision to increase government spending by 50 million pounds (140 million dollars) next year, was succeeded by Agriculture Minister Derick Heathcoat-Amory. Several other Cabinet shifts resulted, but the shakeup did not delay Macmillan's trip. Macmillan left his government in the charge of Home Secretary Richard A. Butler.

During his year at the treasury, Thorneycroft's main objective was keeping inflation down and the value of the pound up. In his letter of resignation he told Macmillan he regarded "the limitation of government expenditure as a prerequisite to the stability of the pound."

Heathcoat-Amory, 58, was brought up from the low-ranking Cabinet post of minister of agriculture to the exchequer's post, third behind the Prime Minister and the foreign minister in Cabinet importance. At 48 Thorneycroft had been one of the youngest men in the top command and his prestige had appeared to be on the rise.

## 3 GIs Accused In Ohio Robbery

RICHMOND, Va. (AP)—Three servicemen accused of stealing \$25,000 from Carmen De Paulo of Sagamore Hills, Ohio, during their Christmas leave, were arrested Monday, the FBI reported.

Special FBI Agent John A. Roche said charges of interstate transportation of stolen property have been lodged against Pfc. Salvatore R. Carcione, 22, based at the Quantico, Va., Marine base, and Army Pvt. Robert L. Kwanski, stationed at Ft. Meade, Md.

Pfc. Ernest Rocco Bellardine, 23, also stationed at Quantico, was charged with being an accessory after the fact. The charge contends that Carcione stole \$25,000 from De Paulo, Carcione's stepfather, about Dec. 25.

## New Idle Pay Claims Drop Sharply in Ohio

COLUMBUS (AP)—New claimants for Ohio unemployment compensation dropped sharply last week while continuing claims, already at the highest figures in recent years, continued to climb.

New claims totaled 25,597 last week, the Bureau of Unemployment Compensation reported, as compared to 36,939 for the week ended Dec. 28. Continuing claims, those in force for one week or longer, climbed from 114,786 to 132,304 last week.

**VIENNA** (AP)—The Vienna anti-Communist newspaper Die Presse claimed today the Hungarian Communist regime is afraid to put former Premier Imre Nagy on trial because of an incriminating tape recording that is in Western hands, presumably American.

Die Presse's unconfirmed report said the recording proved the Russians had officially agreed to Hungarian neutrality and the withdrawal of their troops from Hungary after the Budapest revolt in October 1956.

Later the Russians reneged and smashed the revolution. Nagy is believed to be a Soviet prisoner in Romania.

**MADRAS** (AP)—Police announced that 150 persons were injured, 16 seriously, in riots in Madras Monday during a visit by Prime Minister Nehru.

## Lower Texas Recovering From Floods

EDINBURG, Tex. (AP)—Rough seas battered the lower Texas Gulf Coast today while hundreds of persons displaced by the worst floods in three years started back to sodden homes.

More than 250 persons still were displaced by high water here, although the flood tide from five days of rains is receding.

The Weather Bureau said tides along the lower Gulf Coast would be about three feet above normal but winds that reached 40 m.p.h. Monday night were expected to diminish slightly today. Small craft were warned to stay in port from Texas to Florida.

Dozens of fishermen were marooned at scattered points along the Texas and upper Mexico coasts. Fishing vessels caught in the open seas faced a rugged buffet.

Upstate in northwest Texas, a warm sun broke through leaden skies Monday and began melting heavy snow that drifted as much as three feet deep in places. The snow stranded an estimated 500 travelers for a time before roads were cleared.

In the Corpus Christi area, floods eased after driving hundreds from their homes.

## Frenchwoman's New Designs Shun Gunnysack Fashions

By DOROTHY ROE

Associated Press Women's Editor

NEW YORK (AP)—No matter what the vagaries of fashion may be, the smart woman will shape up to them, says Pauline Trigere, an astute Frenchwoman who has refused to be licked by the predominant sack silhouette.

Previewing her spring collection for 200 members of the nation's fashion press, Trigere effects a happy compromise with the decreed gunnysack theme of fashion, and shows clothes which look new, but never conceal the important curves of the feminine figure.

Her most ingenious device is the "slip cover," a transparent chiffon overblouse, loose and unfitted, revealing the lines of a fitted sheath beneath. She also shows suits and dresses with the waistline defined by wide leather belts, and employs subtle shaping to soften the effect of her straight sheaths.

Trigere calls her entire collection the "shapeup" and proceeds to prove this no idle phrase. One compromise with the sack is a silhouette she calls "in union," which is a straight, loose sheath with a belt threaded through slots, so that it appears in front and back, but leaves the sides hanging free.

She also employs "slip-cover ruffles" at the hemline to add interest and movement to unfitted sheath, and resorts to such devices as white collars and vestees to draw the eye from the unfitted waistline of box-jacket suits.

Trigere's collection, shown on the opening day of a crowded week of New York spring fashion openings, illustrates graphically the advances of American fashion in the last 30 years — since the unlabeled styles of the flapper era which provide inspiration for the majority of 1958 clothes.

The flavor of casual, relaxed informality is present, but the modern version of the fashions of 30 years ago is far different. As Trigere remarks, "No woman should hide her light under a bushel, or her figure under a sack."

So, even with the sack silhouette, dresses and suits for spring can be worn with assurance by the majority of women, thanks to the skill of American designers, and those transplanted to the United States from France.

Opening the schedule of this week's spring style previews was the collection of the late Christian Dior, the final one designed before his death last October. Dior decreed three main silhouettes for 1958 — the unfitted sheath, the bloused sheath and the bell skirt, the latter for cocktail and dinner wear.

Setting a theme for the following showings, Dior's variations on the sack silhouette proved at the outset that a woman may follow fashion and still not look grotesque, if she selects her clothes knowingly, with her own personality and figure as her guide.

## Deaths AND FUNERALS

**MRS. JESSE BOGGESS**

Mrs. Jesse Boggess, 75, died today at 9:45 a. m. in Kearns Nursing Home on Scioto St.

She had lived her entire life in Lawrence County until a year ago when she came to Circleville to make her home with a daughter, Mrs. Hillis Hall, Cedar Heights Road.

Other survivors include the following children: Mrs. Carl Denning, Ironton; Mrs. Jessie Roach, Waterloo; Russell Boggess, Columbus and Ralph Boggess, also of Waterloo; four sisters, Mrs. T. M. Davis, Mrs. Blanche Baldwin, Mrs. Ella Gaffis and Mrs. Hazel Smith, all of Columbus; two brothers, Walter E. Neal and A. R. Neal, both of Columbus and several grandchildren and great grandchildren.

Mader's Funeral Home will transfer the body to Phillip's Funeral Home in Ironton. Services will be held at 2 p. m. there Thursday.

## MISS ANNA M. FRIDLEY

Miss Anna Fridley, 76, Ashville, died in Berger Hospital Monday evening. Born in Madison Twp. she was the daughter of Lewis and Jane Coon Fridley. She is survived only by cousins.

Services will be held at 1 p. m. Thursday in the Bastian Funeral Home, Ashville, with the Rev. W. W. Stuck officiating.

Burial will be in Reber Hill Cemetery. Friends may call at the funeral home after 3 p. m. Wednesday.

## Stock Mart Mixed, Trade Quiet Today

NEW YORK (AP)—Aircraft rallied and other issues erased some early losses but the stock market was mixed in quiet trading early this afternoon.

The improvement from a slightly lower trend which prevailed earlier came on word that President Eisenhower told Republican leaders he was confident the U.S. economy would have a better year in 1958 than in 1957 and that he will send Congress a balanced budget calling for spending of about 74 billion dollars.

The aircraft recovered immediately and posted gains running from fractions to about a point. Leading steels and motors erased small early losses and several were trading about unchanged.

Bell Aircraft, Douglas, United Aircraft and General Dynamics went ahead about a point each.

While U. S. Steel and Bethlehem canceled losses, Youngstown extended its early rise to about a point. Chrysler and General Motors erased small declines. Ford steadied.

Goodrich and U. S. Rubber backed away. New York Central was firm.

U. S. government bonds were firm.

## Men Injured While at Work

John Imbler, 36, Route 4, Circleville, was injured while working at the Container Corporation of America when he fell against a metal box. The accident occurred about 4:45 p. m. Thursday. Imbler was treated at Berger Hospital and released.

Richard E. Meyers, Knollwood Village, supervisor at DuPont's local plant, received a cut on the middle finger of his left hand. He was treated at Berger Hospital and released.

Firemen were fighting desperately to save the home of Cecil Johnson, Route 1, Circleville, which caught fire today at about noon.

According to Deputy Sheriffs Dwight Radcliff and Robert Hoover the blaze started in the chimney of a smoke house located near the residence.

Deputies said part of the house could be saved if the nearby water supply held out. Trucks from the Kingston and Tilton Fire Departments were at the scene.

Deputy Hoover said all persons in the house were evacuated safely. Part of the furniture also was removed.

SENSENBRENNER'S office on the second floor of the Columbus City Hall is huge with the walls covered with memorials of his past two administrations. Among these objects are shovels "e has received at ground breaking ceremonies. "Jack" said he could practically start a hardware store with all the shovels he has been given.

Sensenbrenner invited all from Pickaway County to stop in on him whenever they're in Columbus.

## Dulles Braced For Batch of New Criticism

WASHINGTON (H)—John Foster Dulles has decided to stay on as secretary of state and is steeling himself to resist what he anticipates will be a mounting Democratic demand he retire.

The 69-year-old secretary is reported to have considered his future carefully in recent weeks. Friends said he realized that if he wanted to quit, his 70th birthday Feb. 25 and the approach of an expected hectic congressional session would have given him ample reason.

Now that he has made his decision, informants said, he has no intention of quitting under domestic political fire.

The big question mark is his health. He is understood to be confident, however, he will be vigorous enough for the job.

Dulles had some reason to question his fitness when he returned from the Atlantic Pact summit meeting in Paris two weeks ago, weary and suffering from a bad case of laryngitis. At that time he complained to friends he never before had felt so tired.

But, after a five-day New Year's vacation on Long Island, he appears to have bounced back. He told friends on his return that he felt as good as he looked.

## Red Cross Holds Refresher Course

A Red Cross First Aid Refresher Course for registered nurses will be held at 8 p. m. Wednesday in Common Pleas Courtroom of the Courthouse. Instructors will be Mrs. Arthur Bowman and Mrs. Romaine Wilson, both registered nurses.

**TO REPLACE MARIA CALLAS**—Mrs. Mary Udovick Rosselli of San Francisco holds a picture of her daughter Lucille Udovick, 31, lyric dramatic soprano who may replace the world's top — and most tempestuous prima donna, Maria Callas, in Rome in the star-studded staging of the opera "Norma". Miss Callas, also American-born, in walking out on her role after the first act on opening night, not only caused a furor throughout Italy but may have ended her operatic career in that country.

## Macmillan Resolves Crisis At Home, Starts Long Tour

LONDON (H)—Prime Minister Macmillan left London today on a five-week tour to unify commonwealth thinking on international problems.

Macmillan's visit to India, Pakistan, Ceylon, New Zealand and Australia dramatized the fact that Britain's relationship to the commonwealth countries now is one of equal partnership rather than of parent to child.

Macmillan left behind a hastily resolved Cabinet crisis and the diplomatic loose ends of his proposal for a nonaggression pact with the Soviet Union.

Minutes before he stepped on his plane the Prime Minister, smiling and jaunty, said he had resolved the differences in his cabinet revealed by the bombshell resignation Monday night of Chancellor of the Exchequer Peter Thorneycroft.

Thorneycroft, who objected to the Cabinet's decision to increase government spending by 50 million pounds (140 million dollars) next year, was succeeded by Agriculture Minister Derick Heathcoat-Amory. Several other Cabinet shifts resulted, but the shakeup did not delay Macmillan's trip.

Macmillan left his government in the charge of Home Secretary Richard A. Butler.

During his year at the treasury, Thorneycroft's main objective was keeping inflation down and the value of the pound up. In his letter of resignation he told Macmillan he regarded "the limitation of government expenditure as a prerequisite to the stability of the pound."

Heathcoat-Amory, 58, was brought up from the low-ranking Cabinet post of minister of agriculture to the exchequer's post, third behind the Prime Minister and the foreign minister in Cabinet importance. At 48 Thorneycroft had been one of the youngest men in the top command and his prestige had appeared to be on the rise.

**3 GIs Accused In Ohio Robbery**  
RICHMOND, Va. (H)—Three servicemen accused of stealing \$25,000 from Carmel De Paulo of Sagamore Hills, Ohio, during their Christmas leave, were arrested Monday, the FBI reported.

Special FBI Agent John A. Roche said charges of interstate transportation of stolen property have been lodged against Pfc. Salvatore R. Carcione, 22, based at the Quantico, Va., Marine base, and Army Pvt. Robert L. Kwanski, stationed at Ft. Meade, Md. Pfc. Ernest Rocco Bellardine, 23, also stationed at Quantico, was charged with being an accessory after the fact. The charge contends that Carcione stole \$25,000 from De Paulo, Carcione's stepfather, about Dec. 25.

## New Idle Pay Claims Drop Sharply in Ohio

COLUMBUS (H)—New claimants for Ohio unemployment compensation dropping sharply last week while continuing claims, already at the highest figures in recent years, continued to climb.

New claims totaled 25,597 last week, the Bureau of Unemployment Compensation reported, as compared to 36,939 for the week ended Dec. 28. Continuing claims, those in force for one week or longer, climbed from 114,786 to 132,304 last week.

## Police Apprehend Burglary Suspect

A 16-year-old youth was apprehended today by Circleville police in connection with a burglary at Circleville High School during the weekend and an entry at Walnut St. School last night.

The Southend youth is being questioned by local police concerning both burglaries. The investigation is being handled by Patrolmen Robert Temple and Russell Ogan.

**HAVANA (H)**—The Cuban army announced that its garrison at Dos Palmas Monday night repulsed an attack by about 40 rebels, killing two of the attackers. Dos Palmas is in Oriente Province, near the Sierra Maestra hideout of rebel leader Fidel Castro.

**VIENNA (H)**—The Vienna anti-Communist newspaper Die Presse claimed today the Hungarian Communist regime is afraid to put former Premier Imre Nagy on trial because of an incriminating tape recording that is in Western hands, presumably American.

Die Presse's unconfirmed report said the recording proved the Russians had officially agreed to Hungarian neutrality and the withdrawal of their troops from Hungary after the Budapest revolt in October 1956.

Later the Russians reneged and smashed the revolution.

Nagy is believed to be a Soviet prisoner in Romania.

**MADRAS (H)**—Police announced that 150 persons were injured, 16 seriously, in riots in Madras Monday during a visit by Prime Minister Nehru.

The riots were as equal to Nehru's speech Dec. 24 in which he described as "nonsense" a move by Madras politicians to form a council of action to prevent the Indian government's imposition of Hindi as the official language.

## Lower Texas Recovering From Floods

EDINBURG, Tex. (H)—Rough seas battered the lower Texas Gulf Coast today while hundreds of persons displaced by the worst floods in three years started back to sodden homes.

More than 250 persons still were displaced by high water here, although the flood tide from five days of rains is receding.

The Weather Bureau said tides along the lower Gulf Coast would be about three feet above normal but winds that reached 40 m.p.h. Monday night were expected to diminish slightly today. Small craft were warned to stay in port from Texas to Florida.

Dozens of fishermen were marooned at scattered points along the Texas and upper Mexico coasts. Fishing vessels caught in the open seas faced a rugged buffet.

Upstate in northwest Texas, a warm sun broke through leaden skies Monday and began melting heavy snow that drifted as much as three feet deep in places. The snow stranded an estimated 500 travelers for a time before roads were cleared.

In the Corpus Christi area, floods eased after driving hundreds from their homes.

## Frenchwoman's New Designs 'Peril of Hour' Shun Gunysack Fashions

By DOROTHY ROE  
Associated Press Women's Editor  
NEW YORK (H)—No matter what the vagaries of fashion may be, the smart woman will shape up to them, says Pauline Trigere, an astute Frenchwoman who has refused to be licked by the predominant sack silhouette.

Previewing her spring collection for 200 members of the nation's fashion press, Trigere effects a happy compromise with the decreed gunysack theme of fashion, and shows clothes which look new, but never conceal the important curves of the feminine figure.

Her most ingenious device is the "slip cover," a transparent chiffon overblouse, loose and unfitted, revealing the lines of a fitted sheath beneath. She also shows suits and dresses with the waistline defined by wide leather belts, and employs subtle shaping to soften the effect of her straight sheaths.

Trigere calls her entire collection the "shapeup" and proceeds to prove this no idle phrase. One compromise with the sack is a silhouette she calls "in union," which is a straight, loose sheath with a belt threaded through slots, so that it appears in front and back, but leaves the sides hanging free.

She also employs "slip-cover ruffles" at the hemline to add interest and movement to unfitted sheath, and resorts to such devices as white collars and vests to draw the eye from the unfitted waistline of box-jacket suits.

Trigere's collection, shown on the opening day of a crowded week of New York spring fashion openings, illustrates graphically the advances of American fashion in the last 30 years — since the unlabeled styles of the flapper era which provide inspiration for the majority of 1958 clothes.

The flavor of casual, relaxed informality is present, but the modern version of the fashions of 30 years ago is far different. As Trigere remarks, "No woman should hide her light under a bushel, or her figure under a sack."

So, even with the sack silhouette, dresses and suits for spring can be worn with assurance by the majority of women, thanks to the skill of American designers, and those transplanted to the United States from France.

Opening the schedule of this week's spring style previews was the collection of the late Christian Dior, the final one designed before his death last October. Dior decreed three main silhouettes for 1958 — the unfitted sheath, the bloused sheath and the bell skirt, the latter for cocktail and dinner wear.

Setting a theme for the following showings, Dior's variations on the sack silhouette proved at the outset that a woman may follow a fashion and still not look grotesque, if she selects her clothes knowingly, with her own personality and figure as her guide.

## K of P Seats New Officers

Paul Turner was installed last night as chancellor commander of Philos Lodge No. 64, Knights of Pythias.

Other officers assuming duties for 1958 were: Lloyd Fisher, vice chancellor; Robert Mills, prelate; Frank Woodward Jr., master of arms; Walter Leist, inner guard; Robert Ferguson, outer guard; Clarence Radcliffe, master of work; Raymond Reichelderfer, financial secretary; Orwell Barr, secretary; George Mast, treasurer; and Turney Glick, trustee.

The installation was conducted by K of P officers from Columbus. Jim Leonard, past grand chancellor of Ohio, served as chancellor commander. Lawrence Smith acted as prelate and Samuel Hoy assisted as master of arms.

Lunch was served following the ceremonies by Robert Denman and Gerald Wintough.

Initiation work for three new members is scheduled to get underway Monday night in the local lodge hall.

## Firemen Fight Rural Blaze

Firemen were fighting desperately to save the home of Cecil Johnson, Route 1, Circleville, which caught fire today at about noon.

According to Deputy Sheriffs Dwight Radcliff and Robert Hoover the blaze started in the chimney of a smoke house located near the residence.

Deputies said part of the house could be saved if the nearby water supply held out. Trucks from the Kingston and Tarlton Fire Departments were at the scene.

Deputy Hoover said all persons in the house were evacuated safely. Part of the furniture also was removed.

## Stock Mart Mixed, Trade Quiet Today

NEW YORK (H)—Aircraft rallied and other issues erased some early losses but the stock market was mixed in quiet trading early this afternoon.

The improvement from a slightly lower trend which prevailed earlier came on word that President Eisenhower told Republican leaders he was confident the U.S. economy would have a better year in 1958 than in 1957 and that he will send Congress a balanced budget calling for spending of about 74 billion dollars.

The aircraft recovered immediately and posted gains running from fractions to about a point. Leading steels and motors erased small early losses and several were trading about unchanged.

Bell Aircraft, Douglas, United Aircraft and General Dynamics went ahead about a point each. While U. S. Steel and Bethlehem canceled losses, Youngstown extended its early rise to about a point. Chrysler and General Motors erased small declines. Ford steadied.

Goodrich and U. S. Rubber backed away. New York Central was firm.

U. S. government bonds were firm.

# Pickaway County Seniors To Take General Scholarship Test Friday

The 1958 Ohio General Scholarship Test will be held at 8:45 a. m. Friday in the Circleville High School. Members of the Pickaway County scholarship committee are County Superintendent George McDowell, chairman; J. Wray Henry, principal of Circleville High School; John Keller, superintendent of Jackson Twp., and

Loren Straight, superintendent of Monroe Twp. The scholarship test is taken to determine ability in high school subjects and to show college capability. Its results have indicated success in college. It is most useful in locating capable boys and girls whose training beyond high school is essential to the advance-

ment of the American way of life and to a better understanding of the problems of the peoples of all nations. The experience of taking the test will be helpful to all seniors for they will take similar batteries of tests in many of their future pursuits. Colleges and universities outside of Ohio are also interested

in the results of this test. Many scholarships are received by seniors taking this exam on their high general scholarship. For this reason, a personnel record card and test data will be sent to the college or university that the student indicates in the United States or Canada. Any student in the upper 40 per cent of the 1957-1958 graduating class is eligible. Other seniors are eligible upon the recommendation of their principal. Every eligible and worthy student whose scholarship, attitude and behavior are satisfactory, will be given the opportunity to participate in this exam.

The test will be objective and will cover essentials of the high school academic course of study. There are five subject groups, English, History, Mathematics, Science and Reading. One half hour is allowed each subject and each contestant is required to take all five subjects.

The first 10 students in the county will receive local place certificates. All others in the upper 25 per cent will receive honorable mention certificates. There are five districts and the top 25 boys and 25 girls will receive a certificate of rank. An honorable certificate will be presented to the upper 10 per cent in each district. The top 25 boys and 25 girls in the state will receive rank-certificates. The top 5 per cent in the state will receive honorable mention certificates.

## Boyer Heads Ashville A's

The Ashville Varsity "A" Club has been reorganized. The club was organized in 1954 by William Barnetson and is now under the direction of Coach Russell Gregg. The purpose of the club is to plan money-making projects to benefit the athletic association. Varsity A winners are eligible for membership.

Senior Bill Boyer was elected president; Billy Neal, vice president; Nancy Bainter, secretary, and Sharon Cook, treasurer.

The club is sponsoring a cloak room at home basketball games. There is no charge, but donations to the Varsity "A" fund are accepted.

A variety show will be held January 27. It will consist of local amateur acts, and several professional acts from Columbus. Local talent are urged to take part. See Mrs. Virginia Courtright for an audition.

Club initiation is set for January 9.

## CHS Students Study for Exams

Last weekend the midnight oil was kept burning—Circleville High School students studied for their semester examinations. The tests will start tomorrow at noon and continue through Thursday. The number of examinations each student takes varies from one to four.

## "What's it like to be seventy-five, Grandpa?"

"Well, let's see. What is it like to be seventy-five? For one thing, you can look back a long way and see a lot of important things have happened. You can sort of look ahead, too, and know a lot more good things are coming for little folks like you.

"You know, I can remember when I was about your age there weren't many people who even had electric lights. Grandma didn't have any electric appliances like the mixer and the washer and dryer she has now. And, the first movies I went to didn't have any sound. When a cowboy wanted to say 'They went thataway' they had to flash the words on the screen. Nobody had even started to think about television.

"By the time you're my age, there'll be a lot more exciting things coming along. You might even be flying to the moon and stuffing yourself with green cheese."

We know a little bit about what it's like "to be seventy-five" ourselves. This year we'll be celebrating our seventy-fifth birthday. Like Grandpa, we've seen a lot of exciting things happen, and we've helped make them happen.

For the past seventy-five years—and for many generations to come—it's our job to make wonderful things happen with electricity.

# Pickaway County Seniors To Take General Scholarship Test Friday

The 1958 Ohio General Scholarship Test will be held at 8:45 a. m. Friday in the Circleville High School. Members of the Pickaway County scholarship committee are County Superintendent George McDowell, chairman; J. Wray Henry, principal of Circleville High School; John Keller, superintendent of Jackson Twp., and

Loren Straight, superintendent of Monroe Twp. The scholarship test is taken to determine ability in high school subjects and to show college capability. Its results have indicated success in college. It is most useful in locating capable boys and girls whose training beyond high school is essential to the advancement of the American way of life and to a better understanding of the problems of the peoples of all nations.

The experience of taking the test will be helpful to all seniors for they will take similar batteries of tests in many of their future pursuits. Colleges and universities outside of Ohio are also interested in the results of this test. Many scholarships are received by seniors taking this exam on their high general scholarship.

For this reason, a personnel record card and test data will be sent to the college or university that the student indicates in the United States or Canada.

Any student in the upper 40 per cent of the 1957-1958 graduating class is eligible. Other seniors are eligible upon the recommendation of their principal. Every eligible and worthy student whose scholarship, attitude and behavior are satisfactory, will be given the opportunity to participate in this exam.

The test will be objective and will cover essentials of the high school academic course of study. There are five subject groups, English, History, Mathematics, Science and Reading. One half hour is allowed each subject and each contestant is required to take all five subjects.

The first 10 students in the county will receive local place certificates. All others in the upper 25 per cent will receive honorable mention certificates. There are five districts and the top 25 boys and 25 girls will receive a certificate of rank. An honorable certificate will be presented to the upper 10 per cent in each district.

The top 25 boys and 25 girls in the state will receive rank certificates. The top 5 per cent in the state will receive honorable mention certificates.

## Boyer Heads Ashville A's

The Ashville Varsity "A" Club has been reorganized. The club was organized in 1954 by William Barnetson and is now under the direction of Coach Russell Gregg. The purpose of the club is to plan money-making projects to benefit the athletic association. Varsity A winners are eligible for membership.

Senior Bill Boyer was elected president; Billy Neal, vice president; Nancy Bainter, secretary, and Sharon Cook, treasurer.

The club is sponsoring a cloak room at home basketball games. There is no charge, but donations to the Varsity "A" fund are accepted.

A variety show will be held January 27. It will consist of local amateur acts, and several professional acts from Columbus. Local talent are urged to take part. See Mrs. Virginia Courtwright for an audition.

Club initiation is set for January 9.

## Mishaps Don't Bother Us

Only one area of approach to traffic safety remains, with highways rapidly being improved and automobiles being equipped with all of the safety factors except compulsory low speed. That is to make sure that everybody licensed to drive is capable of driving.

That was the attitude of the Public Officials Traffic Safety Conference in Washington recently. As a beginning, it was suggested that the out-moded motor vehicle bureaus of the nation be modernized to meet current requirements. Most of these bureaus are unhandy for patrons, are poorly equipped and hampered by restrictive legislation.

Tighter driver licensing, in the view of

the conference, would include barring drivers under 18 years of age from the roads unless they had completed an approved training course.

This national meeting will be followed by a series of regional meetings designed to explore conditions further and bring the urgency of safe driving closer home to the people. Support of proposed rules and regulations at the grassroots level would do much to shrink highway casualties and property losses.

Americans regard 40,000 highway deaths a year with too much complacency. How to shake them out of their lethargy is the problem.

## What if Resolutions Held Up?

By Hal Boyle

NEW YORK (AP)—America today is flooded with angels—new year angels.

After the first fever of seasonal reform abates, they will go back to being normally abnormal. Some of the gill is already wearing off a few halos, and the sooner all the gill wears off most of them the better it will be for everybody. Then we will all know how to deal with each other again.

The idea of a national do-right-and-live - better club is praiseworthy in principle. It might even make for a better world if it started and grew gradually.

But it doesn't happen that way. Everybody signs a membership card the same day. And when 100 million adult Americans try to rise above their human nature and become angels all at once you don't have progress.

You are more likely to have chaos, confusion, revolution, dis-

aster, disappointment and dismay. It's a wonder the country survives this annual orgy of mass moral reform.

By nightfall of New Year's Day many individuals have abandoned their good resolutions. Every day after that there are more desertions from the banner of the impossibly perfect life. The few who do adhere to their resolutions throughout the year improve their character, and are better for it, but as long as everybody doesn't follow their example the nation is safe.

But what if everybody resolved at the same time to go on the water wagon, save his money, buy nothing except for cash, and then only what he actually needed?

The American economy would crash in three months, and by 1959 we'd all have to take in each other's washing to earn a living.

What if every office milque-

toast in the land decided at the same time to be firm and decisive? There'd be so many wrong decisions made no business could endure.

What if every husband pledged himself to bring fresh flowers home to his wife once a week in 1958? In 10 weeks, half the wives from Manhattan to Los Angeles would be bed-ridden with acute cases of suspicion. The other half would be sitting in the anterooms of detective agencies, waiting to hire a private eye to check up on the family breadwinner.

What if every wife should simultaneously—well, never mind that worry. The imagination cannot conceive a situation in which all women behaved the same way at the same time.

The best thing to do if you have a friend in the grip of an impossible self-improvement crusade is to send him a "get well" card, and wait for nature to take its course. When it's all over, everybody will feel better.

## Ike-Khrush Talks Impossible

By George Sokolsky

Khrushchev's desire for the New Year is undoubtedly for Eisenhower to join him in a private tete-a-tete, a conference for only the two of them, with interpreters, of course. Then the United States and Soviet Russia would divide the world between them, much as Stalin and Hitler divided the world between them in 1939 when they met in alliance and produced the Molotov-Ribbentrop Pact.

The only trouble is that Khrushchev, having achieved that solar position in the Soviet hierarchy which makes him responsible to no one, could bind his country to such a whimsical notion: Eisenhower, being a constitutional President, cannot bind the United States to any secret arrangements, treaties requiring the consent of the Senate and therefore must be published at least in the "Congressional Record" when such consent is given.

Furthermore, while Soviet Russia owns a number of satellites into which it can send troops to repress the people as it did into Hungary, the United States is bound by a treaty with the United Nations and with the NATO powers and with the SEATO powers to keep them fully informed and to give due consideration to their views.

The President of the United States is therefore in no position to act as though he alone mattered and as though his opinion must prevail. He is circumscribed by the Constitution and is bound by treaty relationships. Although its true that some Presidents, particularly such a one as Franklin D. Roosevelt,

often acted monarchically because their popularity encouraged them to believe that the people would back them up, realistically, it is a dangerous procedure because Americans are volatile and often reverse themselves.

For instance, whereas Dwight D. Eisenhower was the most popular President ever chosen at the beginning of his career, not even his ardent admirers will say that currently the American people unanimously hold him in such esteem.

While it is possible in Soviet Russia to acknowledge Khrushchev as the leader of the country, it is not possible for an intelligent man to hold such a position concerning any President of the United States. He is not even the leader of his own party and historically rarely has been.

In Soviet Russia, it is true of the First Secretary of the Communist Party, "He leads and I follow"; in the United States the nature of citizenship is such that the right of the citizen to the exercise of free judgment is constitutionally guaranteed and at least once every two years, it is the function of citizenship to vote for or against national public officers. At least once every four years, a President stands before the people for their decision as to his worthiness and if

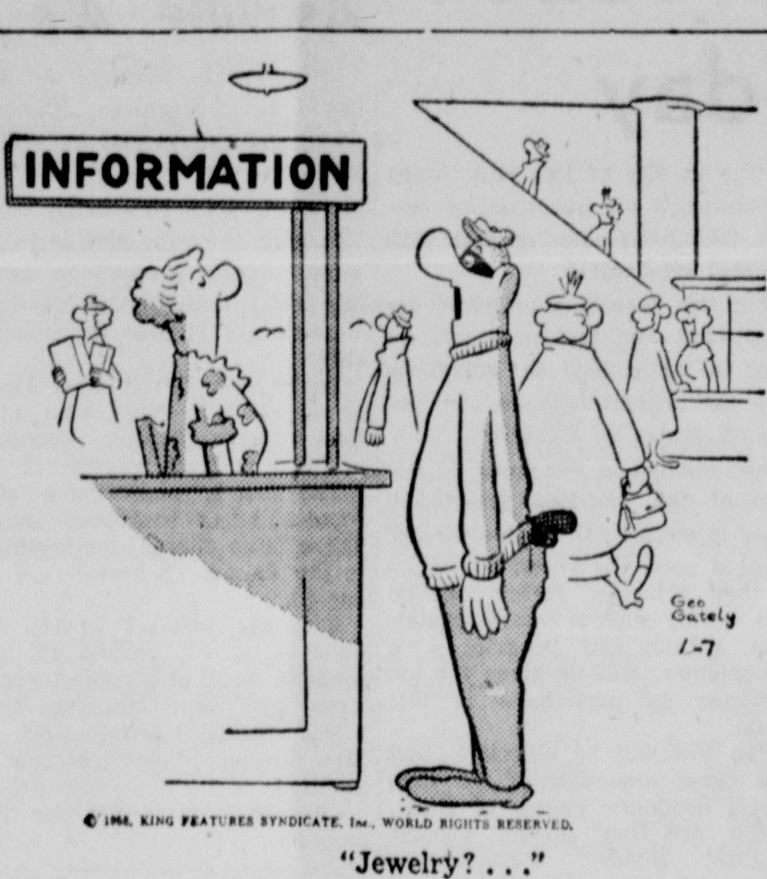

## Ike's Personal Aide Halted by Police

WASHINGTON (AP)—President Eisenhower's personal secretary, Mrs. Ann Whitman, was stopped for speeding Monday as she tried to catch up with the Eisenhower motorcade en route back to Washington from Gettysburg, Pa.

She said she was flagged down in Montgomery County, Md. "I got a stern lecture," Mrs. Whitman reported, and the officer warned that she could have been fined \$100 for the violation.

Mrs. Whitman estimated she was going about 80 miles an hour at the time trying to catch up with the motorcade.

## LAFF-A-DAY

## Get Up Early in the Morning

By Herman N. Bundesen, M.D.

The big secret of planning a healthy, comfortable day at home and at work is to get up early enough to give you plenty of time to do everything that has to be done.

That includes a fresh shower, as I have already explained, and a leisurely, adequate breakfast. Gulping a doughnut and a cup of coffee and running off to catch the train or bus for the office is a horrible way to begin a day.

Frequently in the past I've told you about the various foods which comprise a good breakfast. But, to refresh your memory, your breakfast should consist of:

Fruit juice or raw fruit; an egg or a bowl of whole-grain cereal, or both; if you have the appetite for them; a slice of toast with butter, and a glass of milk or hot chocolate.

You can have coffee, if you wish, but drink it in addition to a glass of milk.

Believe it or not, a healthy breakfast will increase your efficiency. You won't be so anxious to get away from the office for lunch.

There's one more thing to do before leaving the house—brush your teeth.

Dentists and doctors agree that it is best to brush your teeth after

you eat. In fact, it should be done after every meal. But you probably won't get a chance to perform this task after lunch, so brush them thoroughly following breakfast.

Now, you're ready to catch that train or bus for the office.

If the station or bus line is less than a mile away, I strongly urge you to walk there. If you are cooped up in an office like most career girls and men are these days, walking to and from the train or bus probably is the only exercise you will get.

Since you definitely need this exercise, take advantage of the opportunity to walk a little. Besides, after eating a substantial breakfast, you probably will feel more like walking.

That bus or train ride to the office may be a long one or a short one. Either way, you can take advantage of it to help you live a more healthy and comfortable day.

**Question and Answer**  
B. E.: How does a child get tuberculosis meningitis?

Answer: Usually the child picks up the infection from an adult. It may be the first type of tuberculosis to show itself in the child's body, or be a part of a generalized tuberculosis process.

This disease was considered fatal until recently. Excellent results have been obtained, in some cases, by early treatment with streptomycin.

## You're Telling Me!

By HOYT KING

The Soviet decreed price increases in a number of luxury consumer items. What they've got over there is an over-supply of consumers and an under-supply of luxuries.

The Kremlin raised the price of vodka 20 per cent. That's a fifth.

One reason for the vodka price increase is to discourage drinking. Probably it's considered a kind of hangover from capitalism.

The Kremlin also raised the price of autos. The price always is higher under power steering.

Soviet TV sets have been cut in price. Maybe to console.

Soviet TV programs are in color, too. All Red.

Another item the Kremlin raised in price is floor coverings. Probably there's a shortage since Khrushchev has had so many people on the carpet.

## Wisconsin Slayer Labeled 'Insane'

WISCONSIN RAPIDS, Wis. (AP)—The director of the Wisconsin State Hospital for the Criminal Insane Monday described admitted slayer Edward Gein as legally insane, a schizophrenic living a "rather expansive fantasy life."

Dr. Edward Schubert testified for the 51-year-old Plainfield bachelor who has admitted killing and butchering two women and robbing a dozen graves.

The director said it was his opinion and that of the hospital staff that the little handyman is legally insane and incompetent to stand trial. He said Gein's condition has been chronic for at least 12 years.

## The World Today

By James Marlow

WASHINGTON (AP)—In his State of the Union message to Congress Thursday, President Eisenhower will outline the steps he thinks necessary to stay abreast of the Russians—if it is not already too late—or to get ahead of them.

The very steps he suggests will make his listeners, in and out of Congress, wonder: Why didn't he do this before? Why this late date? For instance, he will ask for a big money increase for defense, particularly for missiles.

This country was working on missiles and knew the Russians were. But the administration didn't develop a sense of urgency until the Russians shocked the nation with the evidence of their progress in missiles and Sputniks.

But these Russian blows to American complacency—with a new one added in a report a Russian had been fired 186 miles into space and returned—were not the only warnings to the administration that speed is needed.

In the past two months two re-

ports by distinguished citizens—one still concealed by the administration and the other made public over the weekend—called for great effort to match or surpass Russia.

The still-concealed report was put together by a group—businessmen, scientists and military men—under the chairmanship of H. Rowan Gaither Jr., appointed by Eisenhower to look into our defense needs.

Bits of this one have leaked out, indicating the Gaither group has painted a frightening picture of the future unless this country wakes up and employs greater energy and imagination than it has used so far.

The other report—made by a similar but different group of men working independently of the government under the sponsorship of the Rockefeller Brothers Fund, Inc.—was released to the public Sunday.

It said that unless this country

acts fast in a number of ways, at home and abroad, military superiority and the world balance of power will shift to Russia.

It is against this background—and to a nervous Congress and with a bewildered public listening—that Eisenhower will deliver his State of the Union message.

Any such presidential message—delivered every year by the man in the White House at the opening of Congress—must of necessity be simply an outline of plans stated in fairly general terms.

But if such a message is to have any real meaning a president must follow it up the rest of the year with specific proposals to carry out what he outlined in his general State of the Union message.

So what Eisenhower says Thursday is only part of the story. How he follows it up is what counts.

## Mishaps Don't Bother Us

Only one area of approach to traffic safety remains, with highways rapidly being improved and automobiles being equipped with all of the safety factors except compulsory low speed. That is to make sure that everybody licensed to drive is capable of driving.

That was the attitude of the Public Officials Traffic Safety Conference in Washington recently. As a beginning, it was suggested that the out-moded motor vehicle bureaus of the nation be modernized to meet current requirements. Most of these bureaus are unhandy for patrons, are poorly equipped and hampered by restrictive legislation.

Tighter driver licensing, in the view of

the conference, would include barring drivers under 18 years of age from the roads unless they had completed an approved training course.

This national meeting will be followed by a series of regional meetings designed to explore conditions further and bring the urgency of safe driving closer home to the people. Support of proposed rules and regulations at the grassroots level would do much to shrink highway casualties and property losses.

Americans regard 40,000 highway deaths a year with too much complacency. How to shake them out of their lethargy is the problem.

## What if Resolutions Held Up?

By Hal Boyle

NEW YORK (AP)—America today is flooded with angels—new year angels.

After the first fever of seasonal reform abates, they will go back to being normally abnormal. Some of the gits is already wearing off a few halos, and the sooner all the gits wears off most of them the better it will be for everybody. Then we will all know how to deal with each other again.

The idea of a national do-right-and-live-better club is praiseworthy in principle. It might even make for a better world if it started and grew gradually.

But it doesn't happen that way. Everybody signs a membership card the same day. And when 100 million adult Americans try to rise above their human nature and become angels all at once you don't have progress.

You are more likely to have chaos, confusion, revolution, disaster, disappointment and dismay. It's a wonder the country survives this annual orgy of mass moral reform.

By nightfall of New Year's Day many individuals have abandoned their good resolutions. Every day after that there are more desertions from the banner of the impossibly perfect life. The few who do adhere to their resolutions throughout the year improve their character, and are better for it, but as long as everybody doesn't follow their example the nation is safe.

But what if everybody resolved at the same time to go on the water wagon, save his money, buy nothing except for cash, and then only what he actually needed?

The American economy would crash in three months, and by 1959 we'd all have to take in each other's washing to earn a living.

What if every office milque-toast in the land decided at the

same time to be firm and decisive? There'd be so many wrong decisions made no business could endure.

What if every husband pledged himself to bring fresh flowers home to his wife once a week in 1958? In 10 weeks, half the wives from Manhattan to Los Angeles would be bed-ridden with acute cases of suspicion. The other half would be sitting in the anterooms of detective agencies, waiting to hire a private eye to check up on the family breadwinner.

What if every wife should simultaneously—well, never mind that worry. The imagination can not conceive a situation in which all women behaved the same way at the same time.

The best thing to do if you have a friend in the grip of an impossible self-improvement crusade is to send him a "get well" card, and wait for nature to take its course. When it's all over, everybody will feel better.

## Ike-Khrush Talks Impossible

By George Sokolsky

Khrushchev's desire for the New Year is undoubtedly for Eisenhower to join him in a private tete-a-tete, a conference for only the two of them, with interpreters, of course. Then the United States and Soviet Russia would divide the world between them, much as Stalin and Hitler divided the world between them in 1939 when they met in alliance and produced the Molotov-Ribbentrop Pact.

The only trouble is that Khrushchev, having achieved that solar position in the Soviet hierarchy which makes him responsible to no one, could bind his country to such a whimsical notion; Eisenhower, being a constitutional President, cannot bind the United States to any secret arrangements, treaties requiring the consent of the Senate and therefore must be published at least in the "Congressional Record" when such consent is given.

Furthermore, while Soviet Russia owns a number of satellites into which it can send troops to repress the people as it did in Hungary, the United States is bound by a treaty with the United Nations and with the NATO powers and with the SEATO powers to keep them fully informed and to give due consideration to their views.

The President of the United States is therefore in no position to act as though he alone mattered and as though his opinion must prevail. He is circumscribed by the Constitution and is bound by treaty relationships. Although its true that some Presidents, particularly such a one as Franklin D. Roosevelt,

often acted monarchically because their popularity encouraged them to believe that the people would back them up, realistically, it is a dangerous procedure because Americans are volatile and often reverse themselves.

For instance, whereas Dwight D. Eisenhower was the most popular President ever chosen at the beginning of his career, not even his ardent admirers will say that currently the American people unanimously hold him in such esteem.

While it is possible in Soviet Russia to acknowledge Khrushchev as the leader of the country, it is not possible for an intelligent man to hold such a position concerning any President of the United States. He is not even the leader of his own party and historically rarely has been.

In Soviet Russia, it is true of the First Secretary of the Communist Party, "He leads and I follow"; in the United States the nature of citizenship is such that the right of the citizen to the exercise of free judgment is constitutionally guaranteed and at least once every two years, it is the function of citizenship to vote for or against national public officers. At least once every four years, a President stands before the people for their decision as to his worthiness and if

he runs for a second time, it amounts to a referendum as to whether the people regard him as competent to hold office at all.

Should the American people in 1958 overwhelmingly vote Democratic, Eisenhower would be a very lame duck indeed, as such an election would be regarded as a referendum on the Eisenhower policies. The President is therefore a very different kind of official from the First Secretary of the Communist Party USSR.

The latter is an autocrat who does not rule by divine right but because he has manipulated himself into supreme power; the former is a servant of his people, limited by the Constitution and the voters' confidence in his ability to serve them, to maintain their honor and dignity and to preserve us a nation. Fortunately the American people have been spared from both absolutism and the leadership principle.

A meeting between Khrushchev and Eisenhower therefore could not accomplish more than if our principal allies were also present, because they would have to be informed or we might find ourselves without bases and without allies. As matters stand today, it would be much more important and more effective to straighten out our growing agenda of difficulties with Canada than to worry too much about Soviet Russia because the increasing antagonism of Canada could impair our own defenses and weaken Canada's. Also, we need to cement our relations with Latin America where we are no longer too well regarded in most countries.

We might give our total absorption with Soviet Russia a holiday and attend to some real and pressing, if less dramatic, problems. The prolonged concentration upon our objective enemy is, it seems to me, a calculated device to disturb us.

## Ike's Personal Aide Halted by Police

WASHINGTON (AP)—President Eisenhower's personal secretary, Mrs. Ann Whitman, was stopped for speeding Monday as she tried to catch up with the Eisenhower motorcade en route back to Washington from Gettysburg, Pa.

She said she was flagged down in Montgomery County, Md. "I got a stern lecture," Mrs. Whitman reported, and the officer warned that she could have been fined \$100 for the violation.

Mrs. Whitman estimated she was going about 80 miles an hour at the time trying to catch up with the motorcade.

## LAFF-A-DAY

## Get Up Early in the Morning

By Herman N. Bundesen, M.D.

The big secret of planning a healthy, comfortable day at home and at work is to get up early enough to give you plenty of time to do everything that has to be done.

That includes a fresh-up shower, as I have already explained, and a leisurely, adequate breakfast. Gulping a doughnut and a cup of coffee and running off to catch the train or bus for the office is a horrible way to begin a day.

Frequently in the past I've told you about the various foods which comprise a good breakfast. But, to refresh your memory, your breakfast should consist of:

Fruit juice or raw fruit; an egg or a bowl of whole-grain cereal, or both, if you have the appetite for them; a slice of toast with butter, and a glass of milk or hot chocolate.

You can have coffee, if you wish, but drink it in addition to a glass of milk.

Believe it or not, a healthy breakfast will increase your efficiency. You won't be so anxious to get away from the office for lunch.

There's one more thing to do before leaving the house—brush your teeth.

Dentists and doctors agree that it is best to brush your teeth after

you eat. In fact, it should be done after every meal. But you probably won't get a chance to perform this task after lunch, so brush them thoroughly following breakfast.

Now, you're ready to catch that train or bus for the office.

If the station or bus line is less than a mile away, I strongly urge you to walk there. If you are cooped up in an office like most career girls and men are these days, walking to and from the train or bus probably is the only exercise you will get.

Since you definitely need this exercise, take advantage of the opportunity to walk a little. Besides, after eating a substantial breakfast, you probably will feel more like walking.

That bus or train ride to the office may be a long one or a short one. Either way, you can take advantage of it to help you live a more healthy and comfortable day.

**Question and Answer**  
B. E.: How does a child get tuberculous meningitis?

Answer: Usually the child picks up the infection from an adult. It may be the first type of tuberculosis to show itself in the child's body, or be a part of a generalized tuberculosis process.

This disease was considered fatal until recently. Excellent results have been obtained, in some cases, by early treatment with streptomycin.

The Soviet decreed price increases in a number of luxury consumer items. What they've got over there is an over-supply of consumers and an under-supply of luxuries.

The Kremlin raised the price of vodka 20 per cent. That's a fifth.

One reason for the vodka price increase is to discourage drinking. Probably it's considered a kind of hangover from capitalism.

The Kremlin also raised the price of autos. The price always is higher under power steering.

## Cleveland Woman Is Victim of Mystery Stabbing

CLEVELAND (AP)—Someone who apparently had been hiding in the shadows stabbed and fatally wounded 52-year-old Mrs. Arthur Steele as she walked Monday night beside the East Side apartment building she owned.

Detectives said they were unable to learn of a possible motive and had found no weapon or any other clue.

Mrs. Steele had finished stocking the furnace and was returning to her rear suite when she was stabbed in the abdomen. The woman reached the apartment of a neighbor, Mrs. Cynthia Smith, where she collapsed after saying: "Cynthia, I've been stabbed. The man is in the alley."

Police discounted robbery as a motive because Mrs. Steele's purse was in her apartment. Her husband Arthur lives in Canada, police reported.

Green Beans Baked with Mushrooms; Tomato Salad with Thousand Island Dressing; Ginger Muffins; Baked Apples; Coffee; Tea; Milk.  
While we enjoyed our coffee, Mr. Palme gave us this recipe:  
All measurements are level; recipes proportioned to serve 4 to 6  
Hungarian Veal Goulash: Coarse-dice the meat from 2½ lbs. veal shank. Remove the bones.  
Melt 3 tbs. meat fat in a 3-qt. saucepan.  
Add the veal, 2 lbs., thin-sliced, peeled onions and 1 minced, peeled section garlic. Saute until lightly browned. Turn occasionally.  
Add the bones, ½ tsp. paprika, ¾ tsp. thyme, 2 tsp. salt, 2 c. hot water and 1½ c. tomato juice. Cover.  
Simmer 1½ hrs. or until the veal is tender. Remove the bones.  
Transfer to a heated low 2-qt. casserole.  
Border with 1 (8 oz.) pkg. egg noodles, cooked according to pkg. directions.  
Thicken any liquid left from cooking the veal and pour over the meat. Dust the noodles with minced parsley.  
Green Beans Baked With Mushrooms: Clean and cut 1 lb. green beans lengthwise in halves. Cook in 1 in. salted boiling water 15 min., or until half-tender.  
Meantime, wash, slice and saute 1 lb. fresh mushrooms in 2 tbs. butter. Stir in 2 tbs. flour. Add 2 c. milk. Cook-stir until thickened. Add to the beans.  
Transfer to a buttered, shallow 3-pt. baking dish. Top with ¼ c. fine dry bread crumbs mixed with 2 tbs. melted butter.  
Bake 20 min. in a moderate oven, 375 deg. F. or until browned.  
Thousand Island Dressing  
Into ½ c. mayonnaise, stir 2½ tbs. chili sauce, ½ tsp. minced chives or onion, ½ tsp. minced parsley, 1 tbs. chow chow, 1 finely-chopped, hard-cooked egg and 2 tbs. dairy sour cream. Use with any vegetable salad.

**Household Hints**  
Nothing new about this cold drink, but it's still good! Ginger ale or root beer poured over vanilla ice cream. Serve with straws after stirring well.  
Papayas in you market? They not only taste delicious but they are loaded with vitamins A and C.  
If you sprinkle your salmon steaks with lemon juice, as well as with melted butter before broiling, they'll taste especially savory.  
Families get tired of plain white bread! Serve cracked wheat, pumpernickel and rye sometimes.  
The fresh tart flavor of fresh orange segments tastes good with a pineapple and cottage-cheese salad. Serve for lunch with crisp greens and salad dressing.  
When you use salad oil for french-fried potatoes, heat it to 375 degrees.  
When you buy ice cream in a round carton you can serve it in even slices if you slit the carton from the firmly-frozen ice cream with a sharp knife and then peel off the heavy paper. A quart of the ice cream may be cut into six rounds.  
When you're filling thin pancakes with creamed chicken for a fancy lunch, you'll need a cup of cream sauce and two cups of cubed chicken for the filling. An extra cup of the sauce, flavored with grated Parmesan or Romano cheese may be used for the topping.  
A little sugar in that milk-and-egg mixture for dipping slices of bread for French toast will help make the toast a good brown color when it is fried.

GAY AND GIRLISH MARY CUMMINGS — Mrs. Cummings is pictured here with her TV star husband, Bob, and four of their five children.

## Trim Mother of Five Tells How To Stay Young

By JENNE D'ARCY  
(King Features Syndicate)  
She's a trim Size 10, pert and pretty, the mother of five—but who believes it? When she mentions her brood, people start back in disbelief.  
It's impossible to imagine that gay, girlish Mary Cummings is anybody's mother. But she is.  
Her husband, star of TV's "The Bob Cummings Show," is another handsome parent. But being attractive is part of his acting job.  
"It's part of a wife's job, too," says Mary, who believes the children keep her young in heart.  
"But keeping young physically," she insists, "is something a woman has to do for herself."  
In her own case, she has something of a struggle getting back to a Size 10 after a pregnancy. Exercise in big doses helps.  
"I like the kind of exercise that's fun," she says. "A game of tennis with the children, a hike or a bicycle ride is delightful. Of course, it's possible to enjoy such outdoor sports in California where we live."  
"Exercise that's drudgery is not for me—I just won't do it."  
"Calisthenics? Sometimes I tackle them, but to music. It makes them seem gay."  
Mary diets, too. At home, she sticks to a high protein menu.  
"When I'm out, though, I eat whatever's served," she says. "If I gain a little, I take it easy on eating for a few days until I'm back to normal."  
Even the Cummings kids are diet-conscious.  
"Bob and I teach them that you can't build a good body without good materials," says Mary, "that you are what you eat."

## Dorcas Pathfinder Class Elects Officers For 1958

The Dorcas Pathfinder Class of Calvary Evangelical United Brethren Church held its January meeting in the church annex.  
Mrs. Harry Hosler, teacher, acted in the absence of the president. Roll call and reading of previous meeting minutes were read and approved.  
It was voted to have the meetings quarterly for the year 1958, this to be a trial program.  
The following new officers for the year were elected: Mrs. Ray Anderson, president; Mrs. Minnie Lumpe, vice president; Mrs. Talmer Wise, secretary-treasurer and Mrs. James Stewart, assistant secretary-treasurer.  
Following the close of the meeting refreshments were served by the hostesses, Mrs. Carrie Stout and Mrs. W. K. Cline. Nine members were present and one visitor, Gertrude Cline. The next meeting will be April 3rd, the place to be announced later.

## Two Sisters Entertain For Mrs. Pack

Mrs. Randall Pack, the former Mary Louise Blue, was honor guest at a bridal shower given by two of her sisters, Mrs. John Rooker and Miss Marilyn Blue. The affair took place at the Rooker home on Wilson Ave. Sunday evening.  
Decorations were in pink and white and the traditional umbrella was the focal point of the theme.  
After the bride had opened her gifts games were played and refreshments served. The pink and white color scheme was also carried out in the ice cream molded like wedding bells and the cake decorated in pink roses.  
Mrs. Pack, a recent bride, lives at 540 E. Moler St., Columbus.  
Guests were: Mrs. Ned Dresbach, Mrs. Mason Buskirk, Mrs. Herbert Sturgill, Mrs. Francis Cook, Mrs. Bettie Caudle, Miss Nedra Dresbach, Julia Dresbach, Mrs. Chester Blue, mother of the honored guest, and two other sisters, Barbara and Martha Blue, all of Circleville; Mrs. Gertrude Tilton and Miss Bertha Ricker, both of Columbus; Mrs. J. Pack of Grove City, mother of the bridegroom and her daughter, Joyce Pack.  
Sending gifts were Mrs. David Blue, Mrs. B. M. Wignell and Mrs. Jesse Porter.

## Methodist Class To Publish Church Cook Book

Mrs. Elmer Yeatts was assisted by Mrs. Roscoe Warren, Mrs. George Riffin and Mrs. Opal Overly when she entertained Mrs. Marion's Sunday School class Monday evening.  
The class is getting out a cook book which is to have a recipe from every member of the church with the persons name signed to the recipe. Prizes in games went to Mrs. David Goldschmidt and Mrs. Olan Bostwick.

## Men Are Hosts At Tarlton Lutheran Society

## Dining Car Specialties Include Veal Goulash

By IDA BAILEY ALLEN  
King Features Syndicate

"Perfect timing" exclaimed the Chef, as we boarded the train en route to Baltimore. "The waiters are standing at their stations in the dining car, ready to serve."

"May I escort you to your table?" a pleasant voice inquired. And there, almost completely filling the doorway, stood a genial young man with a broad smile on his face.

"May I introduce myself?" he asked. "Your host, Carl Palmer, superintendent of dining car service."

Here is what we chose for dinner—all specialties of the Baltimore & Ohio Railroad.

Orange Grapefruit Cup; Hungarian Veal Goulash; Egg Noodles;

Green Beans Baked with Mushrooms: Tomato Salad with Thousand Island Dressing; Ginger Muffins; Baked Apples; Coffee; Tea; Milk.

While we enjoyed our coffee, Mr. Palmer gave us this recipe: All measurements are level; recipes proportioned to serve 4 to 6

Hungarian Veal Goulash: Coarse-dice the meat from 2½ lbs. veal shank. Remove the bones. Melt 3 tbsp. meat fat in a 3-qt. saucepan.

Add the veal, 2 lbs. thin-sliced, peeled onions and 1 minced, peeled section garlic. Saute until lightly browned. Turn occasionally.

Add the bones, ½ tsp. paprika, ¾ tsp. thyme, 2 tsp. salt, 2 c. hot water and 1½ c. tomato juice. Cover.

Simmer 1½ hrs. or until the veal is tender. Remove the bones. Transfer to a heated low 2-qt. casserole.

Border with 1 (8 oz.) pkg. egg noodles, cooked according to pkg. directions.

Thicken any liquid left from cooking the veal and pour over the meat. Dust the noodles with minced parsley.

Green Beans Baked With Mushrooms: Clean and cut 1 lb. green beans lengthwise in halves. Cook in 1 in. salted boiling water 15 min., or until half-tender.

Meantime, wash, slice and saute 1 lb. fresh mushrooms in 2 tbsp. butter. Stir in 2 tbsp. flour. Add 2 c. milk. Cook-stir until thickened. Add to the beans.

Transfer to a buttered, shallow 3-pt. baking dish. Top with ¼ c. fine dry bread crumbs mixed with 2 tbsp. melted butter.

Bake 20 min. in a moderate oven, 375 deg. F. or until browned.

Thousand Island Dressing

Into ½ c. mayonnaise, stir 2½ tsp. chili sauce, ½ tsp. minced chives or onion, ½ tsp. minced parsley, 1 tsp. chow chow, 1 finely-chopped, hard-cooked egg and 2 tsp. dairy sour cream. Use with any vegetable salad.

## Household Hints

Nothing new about this cold drink, but it's still good! Ginger ale or root beer poured over vanilla ice cream. Serve with straws after stirring well.

Papayas in your market? They not only taste delicious but they are loaded with vitamins A and C.

If you sprinkle your salmon steaks with lemon juice, as well as with melted butter before broiling, they'll taste especially savory.

Families get tired of plain white bread! Serve cracked wheat, pumpkin and rye sometimes.

The fresh tart flavor of fresh orange segments tastes good with a pineapple and cottage-cheese salad. Serve for lunch with crisp greens and salad dressing.

When you use salad oil for french-fried potatoes, heat it to 375 degrees.

When you buy ice cream in a round carton you can serve it in even slices if you slit the carton from the firmly-frozen ice cream with a sharp knife and then peel off the heavy paper. A quart of the ice cream may be cut into six rounds.

When you're filling thin pancakes with creamed chicken for a fancy lunch, you'll need a cup of cream sauce and two cups of cubed chicken for the filling. An extra cup of the sauce, flavored with grated Parmesan or Romano cheese may be used for the topping.

A little sugar in that milk-and-egg mixture for dipping slices of bread for French toast will help make the toast a good brown color when it is fried.

7. Female Help Wanted

7. Female Help Wanted

THERE'S AN OPENING

at The Circleville Herald for a woman's page editor.

Here's a challenge. We need an active, hard-working gal who  
likes people. Age 20-40 ideal. Should be a long-time resident of  
Circleville, a typist and naturally curious.

It's a fascinating job, fun, and at the same time, exacting. The  
Herald is growing and we need someone to grow with.

Stop in at our Watt St. office for an interview. Stop in today,  
we'll be glad to talk it over. Ask for Bob Harred, editor.

# W'mspport, Grange In IL Victories

Industrial League basketball was highlighted by two close games last night at the Fairgrounds Coliseum.

Williamsport, tied for second in the loop, was forced to go all out in downing Circleville Merchants, 52-50, and Nebraska Grange edged General Electric, 63-61.

Circleville started fast, grabbing a 14-8 first quarter lead, but Williamsport rallied for a 26-23 half-time margin. Action waxed hot and heavy in the third period with the score deadlocked, 37-37, as the buzzer sounded.

The Deers, with only five men available for action, fashioned a

last-period surge to gain a final advantage.

MARVIN Rhoads spearheaded the Deers' attack with 19 points and Tim Timberlake added 12. Larry Lemley with 19 markers was high for the Merchants.

GE, commanding a 33-27 half-time lead and a 45-39 margin in the third quarter, saw its advantage disappear in the final period. Delbert Neff set the pace for the Grangers with 17 points. Martin Barr collected 16 and Hedges and Carpenter had 11 each.

Bob Callihan paced GE with 16 points, Jack Hutchinson netted 14 and Ike Owens registered 12.

Three more games are scheduled Thursday at the coliseum. Headliner of the evening will be the Williamsport-Chilliothe River Oil meeting which will decide second place honors in the league. League Champions Yindling Hybrids will meet Ashville and Veterans of Foreign Wars take on Stoutsville.

## Ohio 3 Teams Lossless in Big Ten Play

### Illinois, Indiana Suffer First Defeats Of Current Campaign

By THE ASSOCIATED PRESS

Seven down and three to go. That's the try in the Big Ten basketball race where eight conference games have been played and seven teams already have met defeat.

Illinois and Indiana suffered initial losses Monday night while Michigan breezed to its second straight victory.

Iowa upset Illinois, 70-68, at Champaign; Purdue bumped Indiana, 68-66, on a last minute basket at Lafayette and Michigan waltzed to a 70-49 home court victory over Wisconsin. Minnesota dropped a 72-71 decision to Kansas State, the nation's fourth ranked team, at Manhattan, Kan.

Ohio State (1-0) and Minnesota (1-0) are the only teams along with Michigan that have yet to lose in Big Ten play.

Michigan, troubled by Wisconsin's zone defense in the first half, outscored the Badgers 40-18 in the second half for an easy triumph after trailing 31-30 at intermission.

Four Wolverines hit for double figures with Pete Tillotson topping the field with 23 points. Brian Kulas led Wisconsin with 18 points, netting 17 of them in the first half.

Iowa, defeated at home by Michigan Saturday, kept coming from behind and finally edged Illinois on some excellent free throwing and a 27-point spurge by Dave Gunther.

Trailing by as much as 11 points on two occasions early in the game, the Hawkeyes moved within two points of Illinois at halftime and came from behind twice in the second half when Gunther pushed in 17 of his points.

Don Ohi of Illinois copped scoring honors, however, with 28 points.

Bob Fehrman's tip in of a last-second missed shot by Bill Greve provided Purdue with its initial conference triumph although Archie Dees pounded in 38 points for Indiana.

The Boilermakers led through most of the contest which they nearly lost at the free throw line where the Hoosiers dunked 24 of 28 attempts. With the score tied at 66-66, Purdue held the ball for one minute and 33 seconds before Greve took his shot. The ball rolled off the hoop and Fehrman tipped it in for his only basket of the game.

Minnesota blew a five-point lead in the final seven minutes of play to become Kansas State's fourth Big Ten victim. Minnesota sophomore Ron Johnson scored 28 points to top all scorers.

Big Ten teams are idle until Saturday when four conference games are to be played. Ohio State is at Wisconsin in an afternoon nationally televised contest. Night games find Illinois at Indiana, Michigan at Northwestern, and Purdue at Michigan State.

## Xavier Wins As Miami, Cincy Lose

By THE ASSOCIATED PRESS

Xavier and Wooster recorded victories Monday in the three games involving Ohio college teams.

Cincinnati and Miami were beaten.

Another chapter in the "big four" of southwestern Ohio was added when Xavier repulsed an early second half surge and went on to defeat Miami, 78-65, on the Musketeer's home court.

It was Xavier's ninth victory in 10 starts. Miami now has 6-4 record.

Another member of the "big four" failed to have much success.

## Braves Given Nod As 'Team-of-Year'

NEW YORK (AP)—Fred Haney's hustling Braves, who brought major league baseball's first world championship to Milwaukee, were overwhelmingly acclaimed the team of the year today in the annual Associated Press year-end poll of sportswriters.

Winners over the New York Yankees after seven pulsating World Series games, the Braves collected 133 first place votes from among the 211 participants.

Following in the voting were North Carolina's college basketball titleholders, the Boston Celtics, National Basketball Assn. powerhouse and Auburn's national collegiate football champs.

# W'sport, Grange In 1L Victories

Industrial League basketball was highlighted by two close games last night at the Fairgrounds Coliseum.

Williamsport, tied for second in the loop, was forced to go all out in downing Circleville Merchants, 52-50, and Nebraska Grange edged General Electric, 63-61.

Circleville started fast, grabbing a 14-8 first quarter lead, but Williamsport rallied for a 26-23 half time margin. Action waxed hot and heavy in the third period with the score deadlocked, 37-37, as the buzzer sounded.

The Deers, with only five men available for action, fashioned a

last-period surge to gain a final advantage.

MARVIN Rhoads spearheaded the Deers' attack with 19 points and Tim Timberlake added 12. Larry Lemley with 19 markers was high for the Merchants.

GE, commanding a 33-27 half-time lead and a 45-39 margin in the third quarter, saw its advantage disappear in the final period. Delbert Neff set the pace for the Grangers with 17 points. Martin Barr collected 16 and Hedges and Carpenter had 11 each.

Bob Callahan paced GE with 16 points, Jack Hutchinson netted 14 and Ike Owens registered 12.

Three more games are scheduled Thursday at the coliseum. Headliner of the evening will be the Williamsport-Chillicothe River Oil meeting which will decide second place honors in the league. League Champions Yingling Hybrids will meet Ashville and Veterans of Foreign Wars take on Stoutsville.

## Delong Holds Scoring Lead

Amanda Shooter Posts 18.2 Mark

Amanda's corner jump shot artist, Neil Delong this week maintained his area scoring lead with an 18.2 average. Delong dropped 1.6 points but continued to hold top position.

Centralia's Bobby Shaw retained second place with a 17.9 average. Shaw dropped 0.9 points in four ball games over the holidays. Bobby's diminutive size has handicapped him in several recent ball games, but when the opportunity presents itself for scoring, this young man is ready.

Ronny Hill, of the Stoutsville Indians, remained in third position with a 17.3 average, dropping 0.4 of a point. Hill led the Stoutsville scoring in its loss to a much taller Centralia outfit Saturday night, with 14 points.

Floyd Myers with a half-point increase took over fourth place. Myers had a hot night against Stoutsville and rang the buckets for 31 points and completely wrecked the Indian attack. He also was the only man in the top 10 to improve his average.

Ray Reinhold shot his average during the holidays, but dropped to fifth place. Centralia and Stoutsville still placed two men in the top five along with Amanda's Delong.

Laurelvilla has four men who remained in the second five along with Amanda's Skip Young to make the top 10.

## Ohio 3 Teams Lossless in Big Ten Play

### Illinois, Indiana Suffer First Defeats Of Current Campaign

By THE ASSOCIATED PRESS

Seven down and three to go. That's the try in the Big Ten basketball race where eight conference games have been played and seven teams already have met defeat.

Illinois and Indiana suffered initial losses Monday night while Michigan breezed to its second straight victory.

Iowa upset Illinois, 70-68, at Champaign; Purdue bumped Indiana, 68-66, on a last minute basket at Lafayette and Michigan waited to a 70-49 home court victory over Wisconsin. Minnesota dropped a 72-71 decision to Kansas State, the nation's fourth ranked team, at Manhattan, Kan.

Ohio State (1-0) and Minnesota (1-0) are the only teams along with Michigan that have yet to lose in Big Ten play.

Michigan, troubled by Wisconsin's zone defense in the first half, outscored the Badgers 40-18 in the second half for an easy triumph after trailing 31-30 at intermission.

Four Wolverines hit for double figures with Pete Tillotson topping the field with 23 points. Brian Kupka led Wisconsin with 18 points, netting 17 of them in the first half.

Iowa, defeated at home by Michigan Saturday, kept coming from behind and finally edged Illinois on some excellent free throwing and a 27-point spurge by Dave Gunther.

Trailing by as much as 11 points on two occasions early in the game, the Hawkeyes moved within two points of Illinois at halftime and came from behind twice in the second half when Gunther pushed in 17 of his points.

Don Ohl of Illinois copped scoring honors, however, with 28 points.

Bob Fehrman's tip in of a last-second missed shot by Bill Greve provided Purdue with its initial conference triumph although Archie Dees pounded in 38 points for Indiana.

The Boilermakers led through most of the contest which they nearly lost at the free throw line where the Hoosiers dunked 24 of 28 attempts. With the score tied at 66-66, Purdue held the ball for one minute and 33 seconds before Greve took his shot. The ball rolled off the hoop and Fehrman tipped it in for his only basket of the game.

Minnesota blew a five-point lead in the final seven minutes of play to become Kansas State's fourth Big Ten victim. Minnesota sophomore Ron Johnson scored 28 points to top all scorers.

Big Ten teams are idle until Saturday when four conference games are to be played. Ohio State is at Wisconsin in an afternoon regionally televised contest. Night games find Illinois at Indiana, Michigan at Northwestern, and Purdue at Michigan State.

## Record Pay Contract Handed Willie Mays

SAN FRANCISCO (AP)—Willie Mays possesses the richest contract in the history of the National League's Giants — New York or San Francisco variety.

Speculation generally placed the figure around \$65,000 — some as high as \$70,000. Owner Horace Stoneham would not give the exact amount, but said Willie's contract called for the highest salary ever paid a Giant player.

Tony Kubek, rookie of the year with the New York Yankees in 1957, compiled a hitting streak of 17 straight games.

## Xavier Wins As Miami, Cincy Lose

By THE ASSOCIATED PRESS

Xavier and Wooster recorded victories Monday in the three games involving Ohio college teams.

Cincinnati and Miami were beaten.

Another chapter in the "big four" of southwestern Ohio was added when Xavier repulsed an early second half surge and went on to defeat Miami, 78-65, on the Musketeer's home court.

It was Xavier' ninth victory in 10 starts. Miami now has a 4-4 record.

Another member of the "big four" failed to have much success.

## Braves Given Nod As 'Team-of-Year'

NEW YORK (AP)—Fred Haney's bustling Braves, who brought major league baseball's first world championship to Milwaukee, were overwhelmingly acclaimed the team-of-the-year today in the annual Associated Press year-end poll of sportswriters.

Winners over the New York Yankees after seven pulsating World Series games, the Braves collected 133 first place votes from among the 211 participants.

Following in the voting were North Carolina's college basketball titleholders, the Boston Celtics, National Basketball Assn. powerhouse and Auburn's national collegiate football champs.

## Pro Cage Scoring Race Tightening

NEW YORK (AP)—Dolph Schayes of Syracuse and Clyde Lovellette of Cincinnati have muscled in on the private race between Bob Pettit and George Yardley for the scoring lead in the National Basketball Assn.

Yardley of Detroit, leads the scorers with 926 points in 34 games for a 27.2 per-game average, statistics showed today.

Schayes slipped past Pettit, the leader two weeks ago. Schayes has accounted for 877 points and a 24.4 average. Pettit, hampered by a fractured wrist, has 855 points and a 25.9 average for third place.

Lovellette, trailing the leader by 111 points a week ago, cut the deficit to 86 points and a total of 840 points and a 24-point average.

## Court Score—509 Cases during 1957

The Pickaway County Common Pleas Court disposed of 509 cases during 1957. Of this total were 183 domestic relations, 170 civil, and 156 criminal cases.

Pending as of Jan. 1, 1957 were 117 domestic relations, 141 civil and 72 criminal cases. Cases filed during 1957 were 116 domestic relations, 144 civil and 152 criminal cases. This is a total of 233 domestic relations, 285 civil and 224 criminal cases.

Cases pending as of Jan. 1, 1958 are 50 domestic relations, 115 civil and 68 criminal cases.

Sitting on the Pickaway County Common Pleas bench was one resident judge, Judge William D. Radcliff sat upon the bench until

May, 1957 when he was appointed to the Court of Appeals of the 4th Appellate District, by Gov. C. William O'Neill. Judge William Ammer was appointed to fill the vacancy left by Radcliff. One judge was assigned from another county during the year.

In 1957 there were 59 divorces granted and 124 dismissed. Three civil cases were tried to a jury and 25 to the court. Ninety-one civil cases were settled or dismissed and 64 were cognovit.

Two criminal cases were tried to a jury and two to the court. One hundred and seven persons were sentenced or placed on probation by the court. Fifty-four were nolle.

## Democratic Women Practice For Another 'Extravaganza'

By JANE EADS

WASHINGTON (AP) — Kicking up their heels and practicing their do-re-mi's again, wives of prominent Democrats here are readying another hilarious headliner "extravaganza" to raise money for their club building fund.

Members of the Women's National Democratic Club, the wives of party big-wigs and members of Congress, have been putting on "hit shows" annually for the benefit of their Washington headquarters, designed to serve their increasing membership across the nation.

Like the amusing production, "Jenny for President," twice-repeated including a presentation at the Democratic national convention in Chicago in 1955, the club's new offering seems bound for success.

"Profiles 'n' Fashions," is the title of the new show authored by attractive, blonde Mrs. Irvin Hoff, wife of the administrative assistant to Sen. Warren Magnuson (D-Wash.).

The production, according to Mrs. Hoff, shows "how fashions make history and history makes fashion, as our national heroes of the past come to life in a series of skits enlivened by music and song."

"Profiles" takes one from "Adams to Addams and Atoms" in a series of seven skits dramatizing highlights in the historical background of various parts of the country beginning with the Boston Tea Party in 1773. Each tableau and its dominating profile, such as

Samuel Adams in the '73 incident, and Jane Addams of Hull House social settlement fame in the 1914 Midwest highlight, is matched with a 1958 interpretation.

Mrs. J. Allen Frear, wife of the Delaware senator and president of the club, says the general committee for the benefit includes the following congressional wives: Mrs. Clifford Davis, Tennessee, Mrs. Hale Boggs, Louisiana, Mrs. Clare Engel and Mrs. Chet Holifield, California, and Mrs. Richard Bolling, Missouri.

Senator's wives responsible for other phases of the benefit include Mesdames Alan Bible, Nevada, John Carroll, Colorado, Richard Neuberger, Oregon, Frank Church, Idaho, Frank Lausche, Ohio, Ralph Yarborough, Texas, Joseph Clark, Pennsylvania, and W. Kerr Scott and Sam Irwin of North Carolina.

Mrs. Hoff says that some seven regional chairmen and 98 other chairmen including representatives from the 48 states, Alaska, Hawaii, Puerto Rico and the District of Columbia have been at work on the production since last July.

## No Motive Found In Lorain Killing

LORAIN, Ohio (AP) — Police are holding a man without charge in the shotgun slaying Monday night of Irvin Lee Robbins, 33-year-old Lorain steelworker.

Robbins was struck in the head by a shotgun blast as he left the apartment of Charles Miller. Mrs. Robbins and five of the couple's seven children witnessed the slaying.

Police arrested Miller, but could give no motive for the shooting.

## Familiar Figure Nabbed by Patrolman

CUMBERLAND, Md. (AP) — State Trooper K. W. Messmer said he thought he recognized the man behind the wheel of the car which struck his state police cruiser as a former offender.

He was right. William Watson Whorton, 27, Clearfield, Pa., had this record: Six convictions for reckless driving, two for speeding, two for drunken driving and five for driving with a revoked license. He was sentenced to 18 months.

## Ohio Is Denied Funds in Advance

WASHINGTON (AP) — Ohio's plan to maintain an accelerated road building program was slowed, at least temporarily, Monday. The government turned down the state's request for an advance in federal interstate highway money.

Charles M. Noble, Ohio highway chief, told newsmen he was told in a 2½ hour meeting with Bertam D. Tallamy, federal highway administrator, that there is not enough money in the trust fund set aside for the giant interstate program to give Ohio its money ahead of time.

## Bartender Bound To Jury in Slaying

CINCINNATI (AP) — Arthur Derexel, 46-year-old bartender accused of second degree murder in the shooting death of a Miami Heights youth, has been bound to the grand jury under \$10,000 bail.

County judge G. H. Palmer took the action Monday. County police said David Merkle, 18, was shot and killed early Sunday while grappling with Derexel for a gun.

## Cincinnati Attorney Facing Suspension

COLUMBUS (AP) — The Ohio Supreme Court was asked Monday to suspend Charles J. Armstrong of Cincinnati from the practice of law indefinitely.

The State Board of Commissioners on Grievances and Discipline recommended the suspension following Armstrong's conviction in U. S. District Court, Cincinnati, on charges of failure to file federal income tax reports.

## Top U.S. Banks Show Increase In '57 Profits

### Large Institutions Count 12 Pct. Hike In Earnings for Year

By SAM DAWSON

NEW YORK (AP) — The profits of the nation's top banks in 1957 ran from 10 to 13 per cent higher than the year before and averaged out at a gain of 12.4 per cent.

But their deposits advanced only 3 per cent, and a number reported a drop in deposits as many persons turned to other forms of saving. Bank reports also show less profit gain in the final months of the year than in the first half.

The big increases in the first half were due to the combination of high demand by borrowers for bank funds and the increasing rates of interest.

A decided slowing down in the demand for loans to business is indicated in the final months of the year, as compared to the previous year, when demand was expanding rapidly. Coupled with an easing in other departments of the money market, this has raised the question in business circles as to how soon the commercial banks might be forced to abandon the high level of their loan structure.

The big banks, however, mostly continued to increase in size. Only three of the first 14 of the top banks showed a drop in deposits. The 14 together have total deposits of \$45,248,751,000, compared with \$43,913,471,000 at the start of 1957.

The top six maintain their previous rank. San Francisco's Bank of America still leads the list with deposits of \$9,524,117,000 and net earnings of \$66,234,220.

Second is New York's Chase Manhattan with deposits of \$6,884,520,209 and earnings of \$55,474,064. Close behind is the First National City Bank of New York with deposits of \$6,871,000,000 and earnings of \$58,914,000.

Two other New York banks are fourth and fifth, Manufacturers Trust and Chemical Corn. The First National of Chicago holds sixth place.

Some bankers feel that the peak of earnings may have been reached for awhile. They cite the signs that demand or their funds this year may be lower than last, and the chances that interest rates may ease if demand for loans loses its former zip.

The American Bankers Assn. has pointed out that many banks are finding collections on installment loans lagging. And like most business lines the banks are finding the costs of operation rising.

The battle among various forms of savings or the saver's dollar is increasing. Many commercial banks raised the rates they pay on time deposits to encourage more customers.

The New York State Bankers Assn. reports that state chartered commercial banks are showing a net loss in deposits, while their rivals, the mutual savings banks, are showing gains.

The drop in demand deposits was particularly noted in New York City's commercial banks.

The commercial banks are also feeling competition with the savings and loans associations, which continue to grow. And until the final months of the year there could have been some competition with the stock exchange, too,

## Casualty Insurance For Firemen OK'd

COLUMBUS (AP) — Political subdivisions may purchase standard casualty insurance or their volunteer firemen, Atty. Gen. William Saxbe has ruled in an opinion to Prosecutor Ralph A. Hill of Clermont County.

Saxbe emphasized that each political subdivision is required by law to be a member of a volunteer firemen's fund for dependents.

Required membership in the fund does not prevent subdivisions from providing additional accident insurance or their volunteer firefighters, Saxbe added.

## Yank Leaving Soviet But Without Wife

MOSCOW (AP) — John Sandor, a Pueblo, Colo., lawyer awaiting permission to take his Russian bride home, was told Monday he must leave the Soviet Union. He booked passage for Friday.

The former U. S. Navy fighter pilot is still hopeful his appeal to Communist party secretary Nikita Khrushchev will help him get his wife to the United States.

Sandor married his Russian sweetheart in November after appealing to Khrushchev for permission to enter Russia. But his application to take his wife to the U. S. has not been answered.

as investors were lured to the late bull market. But no matter what lies ahead, most banks can look back to their most profitable year.

## Ohio Democratic Advisers Interview State Candidates

COLUMBUS, Ohio (AP) — The State met Monday and interviewed three Democratic gubernatorial hopefuls: Columbus' mayor, Maynard E. Sensenbrenner; Mrs. Vivienne Suarez, a Columbus housewife, and Clingan Jackson, Youngstown newspaper man.

Newsman were barred from the meeting, but candidates talked freely afterward. Sensenbrenner said he told the members he is running for governor "and not interested in any other office."

He said the committee made no attempt to talk him out of his planned bid, but also gave no indication he would receive either support or opposition in the primary fight.

Mrs. Suarez said the committee was "cool" toward her gubernatorial campaign, but offered to help her get signatures for a state legislative race. She said the group told her she would be a good candidate for the House of Representatives.

However, Mrs. Suarez told newsmen she would stay in the gubernatorial race "unless I fail to get enough signatures and then I would consider the Legislature". No report of the conversation with Jackson is available.

Five others also appeared before the committee. They are:

Roy Hopple of Columbus, Frank Smith of Portsmouth, and John W. Donahey of Alliance, all candidates for lieutenant governor; Marion Ross of Columbus, for attorney general, and Joseph T. Ferguson, former state auditor, for state treasurer.

William Coleman, state Democratic chairman, said the hopefuls came to discuss their races and no invitations were sent out. He explained that the group had been formed to help find candidates for "lesser offices".

A pre-primary convention proposal was made by William R. Thom, former congressman from Canton. The proposal is designed to allow endorsing of candidates. No action was taken on the resolution Monday.

## Dairy Industry Said 'Rather Slick'

MADISON, Wis. (AP) — Dairying was termed a "rather sick industry" Monday by Charles B. Shuman of Sullivan, Ill., president of the American Farm Bureau Federation, at the opening session of a dairy conference.

But, he told farm people from nine states including Ohio, dairying is not as bad off as wheat farming because it did not get so far away from the price system.

Shuman said the farmer's only choice lies between a free price system favored by the Federation and government price fixing.

## Postal Records Lost in Mails

SALEM, Ohio (AP) — Acting postmaster Ray Reich today is trying to remember the exact hours worked by 40 employees at the post office here.

A package containing time cards for the postal workers has disappeared and there are no duplicate copies.

What happened to the time cards? They were lost in the mail on their way to the regional office in Cincinnati.

## Pink and Black Dog Startles Arizonans

PHOENIX, Ariz. (AP) — A pink and black dog frolicking in front of the Board of Supervisors' office caused passersby to blink.

Owner Dan Espionza explained, "My wife spilled tineture of mer-thiolate on Sailor a couple weeks ago. It wouldn't come out so we dyed him with red Easter egg coloring."

## Trio Robs Tavern Keeper 2 Times

CLEVELAND (AP) — A trio of masked men took \$30 from the cash register at Jimmy's Tavern Monday night, then forced owner James Carroccio, 63, to lead them to his apartment above the tavern.

There the robbers took \$3,000 in cash and \$1,500 in bonds, Carroccio told police.

A decided slowing down in the demand or loans to business is indicated in the final months of the year, as compared to the previous year, when demand was expanding rapidly. Coupled with an easing in other departments of the money market, this has raised the question in business circles as to how soon the commercial banks might be forced to abandon the high level of their loan structure.

The big banks, however, mostly continued to increase in size. Only three of the first 14 of the top banks showed a drop in deposits. The 14 together have total deposits of \$45,248,751,000, compared with \$43,913,471,000 at the start of 1957.

The top six maintain their previous rank. San Francisco's Bank of America still leads the list with deposits of \$9,524,117,000 and net earnings of \$66,234,220.

Second is New York's Chase Manhattan with deposits of \$6,884,520,209 and earnings of \$55,474,064. Close behind is the First National City Bank of New York with deposits of \$5,871,000,000 and earnings of \$58,914,000.

Two other New York banks are fourth and fifth, Manufacturers Trust and Chemical Bank. The First National of Chicago holds sixth place.

Some bankers feel that the peak of earnings may have been reached for awhile. They cite the signs that demand or their funds this year may be lower than last, and the chances that interest rates may ease if demand for loans loses its former zip.

The American Bankers Assn. has pointed out that many banks are finding collections on installment loans lagging. And like most business lines the banks are finding the costs of operation rising.

The battle among various forms of savings or the saver's dollar is increasing. Many commercial banks raised the rates they pay on time deposits to encourage more customers.

The New York State Bankers Assn. reports that state chartered commercial banks are showing a net loss in deposits, while their rivals, the mutual savings banks, are showing gains.

The drop in demand deposits was particularly noted in New York City's commercial banks.

The commercial banks are also feeling competition with the savings and loans associations, which continue to grow. And until the final months of the year there could have been some competition with the stock exchange, too.

## Casualty Insurance For Firemen OKd

COLUMBUS — Political subdivisions may purchase standard casualty insurance or their volunteer firemen, Atty. Gen. William Saxbe has ruled in an opinion to Prosecutor Ralph A. Hill of Clermont County.

Saxbe emphasized that each political subdivision is required by law to be a member of a volunteer firemen's fund for dependants.

Required membership in the fund does not prevent subdivisions from providing additional accident insurance or their volunteer firefighters, Saxbe added.

## Yank Leaving Soviet But Without Wife

MOSCOW — John Sandor, a Pueblo, Colo., lawyer awaiting permission to take his Russian bride home, was told Monday he must leave the Soviet Union. He booked passage for Friday.

The former U. S. Navy fighter pilot is still hopeful his appeal to Communist party secretary Nikita Khrushchev will help him get his wife to the United States.

Sandor married his Russian sweetheart in November after appealing to Khrushchev for permission to enter Russia. But his application to take his wife to the U. S. has not been answered.

as investors were lured to the late bull market.

But no matter what lies ahead, most banks can look back to their most profitable year.

## Ohio Democratic Advisers Interview State Candidates

COLUMBUS, Ohio — The State met Monday and interviewed three Democratic gubernatorial hopefuls: Columbus' mayor, Maynard E. Sensenbrenner; Mrs. Vivienne Suarez, a Columbus housewife, and Clingan Jackson, Youngstown newspaper man.

Newsman were barred from the meeting, but candidates talked freely afterward.

Sensenbrenner said he told the members he is running for governor "and not interested in any other office".

He said the committee made no attempt to talk him out of his planned bid, but also gave no indication he would receive either support or opposition in the primary fight.

Mrs. Suarez said the committee was "cool" toward her gubernatorial campaign, but offered to help her get signatures for a state legislative race. She said the group told her she would be a good candidate for the House of Representatives.

However, Mrs. Suarez told newsman she would stay in the gubernatorial race "unless I fail to get enough signatures and then I would consider the Legislature".

No report of the conversation with Jackson is available.

Five others also appeared before the committee. They are: Roy Hoppie of Columbus, Frank Smith of Portsmouth, and John W. Donahey of Alliance, all candidates for lieutenant governor; Marion Ross of Columbus, for attorney general, and Joseph T. Ferguson, former state auditor, for state treasurer.

William Coleman, state Democratic chairman, said the hopefuls came to discuss their races and no invitations were sent out. He explained that the group had been formed to help find candidates for "lesser offices".

A pre-primary convention proposal was made by William R. Thom, former congressman from Canton. The proposal is designed to allow endorsing of candidates. No action was taken on the resolution Monday.

## Dairy Industry Said 'Rather Slick'

MADISON, Wis. — Dairying was termed a "rather sick industry" Monday by Charles B. Shuman of Sullivan, Ill., president of the American Farm Bureau Federation, at the opening session of a dairy conference.

But, he told farm people from nine states including Ohio, dairying is not as bad off as wheat farming because it did not get so far away from the price system.

Shuman said the farmer's only choice lies between a free price system favored by the Federation and government price fixing.

COLUMBUS — Columbus recorded its first carbon monoxide death of 1958 Monday when fumes from a faulty heater killed Joseph E. Muth, 45.

## Postal Records Lost in Mails

SALEM, Ohio — Acting postmaster Ray Reich today is trying to remember the exact hours worked by 40 employees at the post office here.

A package containing time cards for the postal workers has disappeared and there are no duplicate copies.

What happened to the time cards?

They were lost in the mail on their way to the regional office in Cincinnati.
